

NI-VISA Run-Time Engine

The BLE Measurement Software application needs the NI-VISA Run-Time Engine (v4.6 or later) to communicate with MT8852B via GP-IB.

[How to get the NI-VISA Run-Time Engine (v4.6)]

- 1) Visit the National Instruments Drivers and Updates page at <http://www.ni.com/en-us/support.html>.
- 2) Input "NI-VISA Run-Time Engine 4.6" for search word of Technical Support
- 3) Get the NI-VISA Run-Time Engine 4.6(visa460runtime.exe)
