

Company Philosophy and Mission

About This Report

In 2015, Anritsu Corporation marked the 120th anniversary of its founding. Over this period, Anritsu has contributed to the development of the telecommunications field through its wireline and wireless communications equipment as well as its test and measurement devices. The source of the strength that has sustained Anritsu's corporate activities over 120 years has been the two strong strands of DNA that run through the Company and may be expressed as "Sincerity, Harmony, and Enthusiasm" and "Original & High Level."

This report has been prepared to help our stakeholders understand these two strands of DNA. As an integrated report, this publication presents information on financial factors, including financial performance and corporate strategy, and non-financial factors, such as information on environmental and social matters in an integrated fashion.

Looking ahead, we will manage Anritsu with a strong sense of purpose and, through our main business activities, will aim to contribute to the creation of a safe, secure, and prosperous global society.
