Financial Results Summary

1. Basis of Presenting Consolidated Financial Statements

(1) The consolidated financial statements of Anritsu Corporation ("the Company") have been prepared in accordance with International Financial Reporting Standards (IFRS) pursuant to the provision of Article 93 of "Regulations Concerning Terminology, Forms and Methods for Preparing Consolidated Financial Statements" ("Regulations on Consolidated Financial Statements").
(2) The financial statements of the Company have been prepared in accordance with "Regulations Concerning Terminology, Forms and Methods for Preparing Financial Statements" ("Regulations on Financial Statements").

As a company submitting financial statements prepared in accordance with special provisions, the Company prepares its financial statements pursuant to the provision of Article 127 of the Regulations on Financial Statements.
(3) The translation of the Japanese yen amounts into U.S. dollars is included solely for the convenience of readers outside Japan, using the prevailing exchange rate at March 31, 2017, which was ¥112.19 to U.S.$1.00 The convenience translations should not be construed as representations that the Japanese yen amounts have been, could have been or could in the future be converted into U.S. dollars at this or any other rate of exchange.

2. Special Acts for Ensuring Appropriateness of Consolidated Financial Statements and System Improvement for Preparing Appropriate Consolidated Financial Statements Based on IFRS

The following acts are undertaken by the Company specially for ensuring the appropriateness of its consolidated financial statements and implementing the internal control over preparation of the consolidated financial statements appropriately based on IFRS:
(1) Joining the Financial Accounting Standards Foundation (FASF) and gathering information on revised accounting standards or attending seminars in order to fully understand the contents of accounting standards and to improve the Company's accounting system to accurately reflect revisions to accounting standards in the consolidated financial statements of the Company.
(2) To prepare appropriate consolidated financial statements based on IFRS, the Company evaluates the latest standards obtained from press releases and standards documentation of the International Accounting Standards Board and determines Group accounting policies in accordance with IFRS.

Notes to the Consolidated Financial Statements

1. Reporting Entity

Anritsu Corporation is an incorporated company located in Japan. The registrated address of headquarters is disclosed in Anritsu's website (https://www.anritsu.com). The Company's reporting date is March 31, 2017. The consolidated financial statements of the Company comprise the Company and its subsidiaries ("the Anritsu Group"). The Anritsu Group is engaged primarily in the Test and Measurement and PQA (Products Quality Assurance) business. Main activities for each business are stated under 6. Segement Information.

2. Basis of Preparation

(1) Accounting Standards Adopted

The consolidated financial statements of the Anritsu Group have been prepared in accordance with International Financial Reporting Standards (IFRS) pursuant to the provision of Article 93 of the "Regulations Concerning Terminology, Forms and Methods for Preparing Financial Statements" ("Regulations on Consolidated Financial Statements").

The Company meets the requirements of Article 1-2 of the "Regulations on Consolidated Financial Statements." The Company is a qualified company for filing its financial statements in IFRS in accordance with this article.

The consolidated financial statements of the Anritsu Group have been approved by Hirokazu Hashimoto, Representative Director and President, and Akifumi Kubota, Chief Financial Officer of the Company.

(2) Basis of Measurement

The consolidated financial statements have been prepared on a historical cost basis except for the following significant items:

- Derivatives are measured at fair value;
- Non-derivative financial assets at fair value through other comprehensive income are measured at fair value; and
- Defined benefit assets (liabilities) are recognized at the present value of the defined benefit obligation less the fair value of the plan assets.

(3) Functional and Presentation Currency

The consolidated financial statements are presented in Japanese yen which is the Company's functional currency. All financial information presented in Japanese yen has been rounded down to the nearest million.

3. Significant Accounting Policies

The significant accounting policies applied in the preparation of the consolidated financial statements are summarized below:

Note: The Anritsu Group has early adopted IFRS 9 (Financial Instruments, revised in October 2010).

(1) Basis of Consolidation

1. Subsidiaries

Subsidiaries are corporate entities that are controlled by the Anritsu Group. Control exists when an investor is exposed to, or has rights to, variable returns from its involvement with an investee and has the ability to affect those returns through its power over the investee.

The financial statements of all subsidiaries are included in the consolidated financial statements from the date when control is obtained by the Anritsu Group until the date when it is lost. All inter-company balances, and any unrealized gains and losses and claims and obligations arising from inter-company transactions, are eliminated in the preparation of the consolidated financial statements.

Among all of the subsidiaries, Anritsu Eletronica Ltda., Anritsu Company S.A. de C.V., Anritsu (China) Co., Ltd., Anritsu Electronics (Shanghai) Co., Ltd., Anritsu Industrial Solutions (Shanghai) Co., Ltd. and Anritsu Industrial Systems (Shanghai) Co., Ltd. set the reporting period-end date as December 31. Thus, for these subsidiaries, additional financial statements as of the end of the parent's reporting period are prepared for consolidation purposes. The reporting period-end date for other consolidated subsidiaries is the same as that of the parent.

The Anritsu Group applies the acquisition method as its method of accounting for business combinations. Goodwill is measured at the fair value of the consideration transferred, including the recognized amount of any non-controlling interests in the acquiree at the date of acquisition, less the net recognized amount of the identifiable assets acquired and the liabilities assumed at the acquisition date (ordinarily measured at fair value). The Anritsu Group measures non-controlling interests that are present ownership interests and which entitle the Anritsu Group to a pro rata share of the entity's net assets in the event of liquidation at either fair value or at the present ownership instruments' proportionate share in the recognized amounts of the identifiable net assets of the acquired company. The Anritsu Group chooses the method of measurement for each business combination on the acquisition date. Transaction expenses arising in relation to business combinations are expensed as incurred.

Additional acquisitions of non-controlling interests are accounted for as equity transactions, and no goodwill is recognized.

Changes in equity interests in subsidiaries, if the Anritsu Group retains control over the subsidiaries, are accounted for as equity transactions. The carrying amounts of the Anritsu Group's interests and the non-controlling interests are adjusted to reflect the change in interests in the subsidiary, and any difference between the adjustment to the non-controlling interests and the fair value of the consideration received is recognized directly in equity as "Equity attributable to owners of the parent." If the Anritsu Group loses control over a subsidiary, profits and losses that arise from the loss of control are recognized as profit or loss.

Business combinations of entities under common control, or business combinations in which all the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combinations, when that control is not transitory, are accounted for based on carrying amounts.

2. Associates

Associates are entities over which the Anritsu Group has significant influence but do not have control to govern the financial and operating policies. Investments in associates are recognized at acquisition cost and subsequently accounted for using the equity method.

3. Joint Ventures

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. The Anritsu Group accounts for its share in a jointly controlled entity under a joint venture in the same way as it accounts for associates using the equity method.

(2) Business Combinations

The acquisition method is applied as the method of accounting for business combinations. The acquisition consideration is measured as the sum of the acquisition-date fair values of the transferred assets exchange from control of the acquiree, liabilities assumed, and the equity instruments issued by the acquirer.

If the acquisition consideration is more than the fair values of the identifiable assets and liabilities, the excess amount is recognized as goodwill in the consolidated statement of financial position. Transaction expenses arising in relation to business combinations are expensed as incurred.

(3) Foreign Currency Translation

1. Foreign Currency Transactions

Foreign currency transactions are translated into functional currencies of individual companies of the Anritsu Group using the spot exchange rate at the date of the transaction. At the end of the reporting period, monetary assets and liabilities denominated in foreign currencies are retranslated into functional currencies using the spot exchange rate at the reporting date. Non-monetary assets and liabilities measured at fair value and denominated in foreign currencies are retranslated into functional currencies using the spot exchange rate at the date that the fair value was determined. Non-monetary items that are measured at cost are translated using the spot exchange rate on the date of the transaction.

Exchange differences arising from retranslation or settlement of accounts are recognized in profit or loss for the relevant period.

2. Financial Statements of Foreign Subsidiaries

Assets and liabilities of foreign subsidiaries are translated into Japanese yen using the spot exchange rate at the reporting date. Income and expenses of foreign subsidiaries are translated into Japanese yen at average exchange rates for the period.

Exchange differences arising from the translation of financial statements of foreign subsidiaries are recognized in "Other Comprehensive Income" in the consolidated statement of profit or loss and other comprehensive income, and cumulative exchange differences are presented in "Other Components of Equity" in the consolidated statement of financial position.

On disposal of the entire interest in foreign operations, and on the partial disposal of an interest involving loss of control, significant influence or joint control, the cumulative amount of the exchange differences is reclassified to profit or loss as a part of gain or loss on disposal.

(4) Inventories

Inventories are stated at the lower of cost or net realizable value. Inventories are stated at cost determined primarily by the moving average method for raw materials and primarily by the specific identification method for finished goods and work in progress.

Net realizable value represents the estimated selling price for the inventories in the ordinary course of business, less all estimated costs of completion and estimated selling expenses.

(5) Property, Plant and Equipment

The cost model is applied to property, plant and equipment. Property, plant and equipment are measured at historical cost, net of accumulated depreciation and accumulated impairment losses. Cost includes the expenses directly attributable to the acquisition of the assets, the costs related to dismantling and removal of the assets and restoration of the site on which the assets are located to its original condition as well as borrowing costs attributable to the assets.

Depreciation of these assets commences when the assets are available for use, and the straight-line method is applied over the following estimated useful lives:

- Buildings and Structures: 3–50 years
- Machinery, Equipment and Vehicles: 2–15 years
- Tools, Furniture and Fixtures: 2–20 years

Land and construction in progress are not depreciated. Depreciation for assets held under finance leases, other than those that can reasonably be expected to transfer the ownership of the leased property at the end of the lease period, is computed over the lease period or the economic useful life of the assets, whichever is shorter.

The depreciation methods, useful lives and residual values are reviewed at the end of each reporting period, and revised when necessary.

(6) Goodwill and Intangible Assets

The cost model is applied to intangible assets and these assets are presented as net of accumulated amortization and accumulated impairment loss, measured at acquisition cost.

Acquisition costs from business combinations are measured at fair value at the date of intangible assets' acquisition. After being recognized, these assets are presented as net of accumulated amortization and accumulated impairment loss, measured at acquisition cost.

1. Goodwill

Goodwill arising on the acquisition of a subsidiary is recognized as an intangible asset. Measurement of goodwill on initial recognition is described in Note 3(1)1.

Goodwill is measured at cost less accumulated impairment loss. Goodwill is not amortized, but tested annually for impairment and presented in impairment loss when necessary. Impairment losses recognized for goodwill are not reversed in subsequent periods.

2. Development Assets

Expenses arising from development activities are recognized as assets only if the Anritsu Group has demonstrated all of the following conditions:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- Its intention to complete the intangible asset and use or sell it;
- Its ability to use or sell the intangible asset;
- How the intangible asset will generate probable future economic benefits;
- The availability of adequate technical, financial, and other resources to complete the development and to use or sell the intangible asset; and
- Its ability to measure reliably the expenditure attributable to the intangible asset during its development.

Amortization of development assets commences when the relevant project has ended using the straight-line method over the estimated useful life ranging from 3 to 5 years during which the relevant development asset is expected to generate net cash inflows. The development expenditure that does not meet the above requirements for capitalization as well as the expenditure on research activities are expensed as incurred.

The amortization method and the amortization period are reviewed at the end of each reporting period and revised when necessary.

3. Other Intangible Assets

Other intangible assets primarily consist of computer software. Amortization for other intangible assets commences when the related assets are available for use based on the straight-line method over the estimated useful life ranging from 3 to 7 years.

Amortization for assets held under finance leases, other than those that can reasonably be expected to transfer the ownership of the leased property at the end of the lease period, is computed over the lease period or the economic useful life of the assets, whichever is shorter.

The depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and revised when necessary.

(7) Investment Property

Investment property is primarily commercial facilities held for the purpose of earning rental income. The cost model is applied to investment property in which related assets are measured at acquisition cost less accumulated depreciation and accumulated impairment losses. Cost includes the expenditure that is directly attributable to the acquisition of the assets, the costs related to dismantling and removal of the assets and restoration of the site on which the assets are located to its original condition as well as borrowing costs attributable to the assets.

Depreciation of these assets commences when the assets are available for use based on the straight-line method over the estimated useful life ranging from 3 to 50 years.

Land is not depreciated.

The depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and revised when necessary.

(8) Leases

Leases are classified as finance leases when all risks and rewards associated with the leases are substantially transferred to the Anritsu Group. All other leases are classified as operating leases.

Finance leases are recognized as assets based on the fair value of the leased property at the commencement of the lease or the present value of the minimum lease payments, whichever is lower. Lease obligations are presented as current liabilities and noncurrent liabilities in the consolidated statements of financial position. Finance costs are allocated to each period during the term of the lease so as to produce a constant rate of interest on the unamortized balance of liabilities.

Operating lease payments are treated as an expense using the straight-line method over the lease period.

Variable lease payments are expensed as incurred.

(9) Derivatives

The Anritsu Group utilizes derivatives, including interest rate swaps and foreign exchange forward contracts, as a hedge to manage interest rate risk and foreign currency risk. However, hedge accounting is not applied to these derivatives as the requirements to qualify for hedge accounting are not met. These derivatives are initially recognized at fair value at the date the derivative contract is entered into and are subsequently remeasured at fair value, with gains and losses arising from changes in fair value recognized in profit or loss.

(10) Non-derivative Financial Assets

The Anritsu Group recognizes trade and other receivables when they arise. Other financial assets are recognized at contract dates when the Anritsu Group becomes a party to the contractual provisions of the instrument.

1. Financial Assets Measured at Amortized Cost

Financial assets that meet the two conditions below are measured at amortized cost (less impairment losses) using the effective interest method.

- Under the Anritsu Group's business model, the relevant financial asset is held with the objective of collecting contractual cash flows.
- The contracted terms of the financial asset give rise to cash flows on specified dates that are solely payments of principal and interest on the principal outstanding.

2. Financial Assets Measured at Fair Value through Other Comprehensive Income

Financial assets, other than those measured at amortized cost, are measured at fair value and all changes in fair value are recognized as profit or loss. However, on initial recognition, IFRS 9 permits an election to record all changes in fair value for an investment in an equity instrument that is not for trading purposes in other comprehensive income ("Financial Assets Measured at FVTOCI").

The Anritsu Group has elected to classify equity investments that are held for the purpose of maintaining and strengthening business relationships with investees as Financial Assets Measured at FVTOCI.

Amounts recognized in other comprehensive income related to Financial Assets Measured at FVTOCI are not transferred to profit or loss, and impairment losses are not recognized. However, dividends on such investments are recognized in profit or loss as finance income, except in cases when it is evident that the dividends are considered return of investment principal.

Changes in the fair value of Financial Assets Measured at FVTOCI recorded in other comprehensive income on the consolidated statement of profit or loss and other comprehensive income are recognized in "Other Components of Equity" in the consolidated statement of financial position. The balance of "Other Components of Equity" is reclassified directly to "Retained Earnings" when the equity investment is derecognized.

3. Derecognition of Financial Assets

The Anritsu Group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire or when the Anritsu Group transfers the contractual right to receive cash flows from financial assets in transactions in which substantially all the risks and rewards of ownership of the asset are transferred to another entity.

4. Cash and Cash Equivalents

Cash and cash equivalents are cash and highly liquid investments that are readily convertible to certain amounts of cash with only a slight risk of fluctuation in value, including short-term time deposits with original maturities of three months or less.

(11) Non-derivative Financial Liabilities

Debt securities issued by the Anritsu Group are initially recognized on the issue date. Other non-derivative financial assets are recognized at contract dates when the Anritsu Group becomes a party to the contractual provisions of the instrument.

The Anritsu Group derecognizes financial liabilities when they are extinguished, i.e., when the obligation specified in the contract is discharged, cancelled or expired.

The Anritsu Group has trade payables and other payables, borrowings and bonds and other financial liabilities as non-derivative financial liabilities and initially measures them at fair value (net after directly attributable transaction costs). After initial recognition, they are measured at amortized cost using the effective interest method.

(12) Equity

1. Common Stock

Proceeds from issuance of equity instruments by the Company are included in "Common Stock" and "Additional Paid-in Capital." The direct issue costs are deducted from "Additional Paid-in Capital."

2. Treasury Stock

When the Anritsu Group reacquires treasury stock, the consideration paid, net of direct transaction costs, is recognized as a deduction from equity. When the treasury stock is sold, the consideration received is recognized as an increase in equity. When a loss is incurred, it is reclassified to "Retained Earnings." When the treasury stock is retired, the amount of retired treasury stock is deducted from "Other additional paid-in capital" included in "Additional paid-in capital." If the amount of retired treasury stock is more than the balance of "Other additional paid-in capital," the excess amount is deducted from "Retained earnings."

(13) Compound Instruments

The compound instruments issued by the Company include corporate bonds with subscription rights to new shares that can be converted to equity at the option of the holder and for which the number of new shares to be issued is not affected by changes in fair value. The liability element of a compound instrument is initially recognized at the fair value of a similar liability that does not have an equity conversion option. The equity element of a compound instrument is initially recognized at the difference between the fair value of the compound instrument as a whole and the fair value of the liability element. Any directly attributable transaction costs are allocated to each element in proportion to the initial carrying amounts. After initial recognition, the liability element of a compound instrument is measured at amortized cost using the effective interest method. The equity element of a compound instrument is not remeasured after initial recognition.

(14) Impairment

1. Non-derivative Financial Assets

Financial assets measured at amortized cost are assessed at each reporting date as to whether there is objective evidence that the asset may be impaired. A financial asset is considered to be impaired when there is objective evidence which indicates that one or more loss events have occurred after the initial recognition of the asset and when it is reasonably anticipated that the loss events have an impact on the estimated future cash flows of the asset.

Objective evidence of impairment for financial assets measured at amortized cost includes default or delinquency of the borrower, extension of the due date for the claim and indications of bankruptcy of the borrower.

The Anritsu Group assesses whether evidence of impairment exists individually and collectively for financial assets measured at amortized cost. All individually significant financial assets are individually assessed for impairment. Individually significant financial assets found not to be impaired individually are then collectively assessed for any impairment that has been incurred but not yet recognized. Financial assets that are not individually significant are collectively assessed for impairment in a group of financial assets with similar risk characteristics. In assessing collective impairment, the Anritsu Group evaluates historical trends for the probability of default, timing of recoveries and the amount of loss incurred. Adjustments are added to reflect judgments on whether current economic and credit conditions are such that the actual losses are likely to be greater or less than those suggested by historical trends.

Impairment loss for financial assets measured at amortized cost is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The impairment loss is recognized through profit or loss for the period, and included in the allowance for doubtful accounts. If there are events which decrease the amount of impairment after the recognition of the impairment, the reversal of the impairment loss is recognized in profit or loss.

2. Non-financial Assets

The carrying amounts of non-financial assets, excluding inventories and deferred tax assets, are assessed whether there is any indication of impairment at the end of each reporting period. If any such indication exists, the recoverable amount of the non-financial asset is estimated. Goodwill is tested for impairment annually.

The recoverable amount of an asset or a cash-generating unit is the higher of its value in use and its fair value less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects the time value of money and the risks specific to the asset. A cash-generating unit is the smallest group of assets which generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

A cash-generating unit of goodwill is determined based on the unit by which the goodwill is monitored for internal management purposes and does not exceed an operating segment before aggregation.

If there is an indication that corporate assets may be impaired, the recoverable amount is determined for the cash-generating unit to which the corporate assets belong, because the corporate assets do not generate independent cash inflows.

If the carrying amount of an asset or a cash-generating unit exceeds the recoverable amount of it, an impairment loss is recognized in profit or loss. The impairment loss recognized related to a cash-generating unit is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to reduce the other assets of the unit on a pro-rata basis based on the carrying amount of each asset in the unit.

An impairment loss recognized for goodwill is not reversed in subsequent periods. Assets other than goodwill are reviewed to determine whether there is any indication that an impairment loss recognized in prior years may no longer exist or may have decreased. An impairment loss recognized in prior years for an asset is reversed to profit or loss if an event occurs to change the estimates used to determine the asset's recoverable amount. A reversal of impairment loss does not exceed the carrying amount, net of depreciation and amortization, that would have been determined if no impairment loss had been recognized for the asset for prior years.

(15) Assets Held for Sale

Non-current assets (or disposal groups) not in continuing use for which the value is anticipated to be recovered through sale are classified as "Assets Held for Sale." Classification as "Assets Held for Sale" is made when the asset meets the following two conditions: (1) it can be sold immediately in its current state and (2) the probability of sale is extremely high.

"Assets Held for Sale" are measured at the carrying amount or fair value less costs to sell, whichever is lower. Depreciation or amortization is not applied to property, plant and equipment and intangible assets that have been classified as "Assets Held for Sale."

Non-current assets (or disposal groups) that cease to be classified as held for sale are measured at the lower of (a) their carrying amounts, adjusted for any depreciation or amortization that would have been recognized if the impairment loss had not been recognized for the assets, or (b) the recoverable amounts at the date that the assets are decided not to be classified as held for sale. Adjustments of the carrying amounts arising from ceases of reclassification to the non-current assets held for sale are recognized in profit or loss.

(16) Employee Benefits

1. Defined Benefit Plans

A retirement lump-sum payment plan and a cash-balance pension plan (market interest reflecting type) have been adopted as defined benefit plans to cover the employees of the Company and some of its subsidiaries. Net defined benefit obligations are calculated separately for each plan by estimating the amount of future benefits that employees have earned in exchange for their service for the prior and current years. The estimated benefits are discounted to determine the present value, and the fair value of plan assets is deducted.

The discount rates are the yields of high quality corporate bonds that have maturity terms approximating those of the Company's obligations. Retirement benefit obligations are calculated using the projected unit credit method with adjustments made using the straight-line method when a very high benefit level is incurred in the latter half of the number of years of service.

The Anritsu Group recognizes remeasurements of the net defined benefit plans in "Other Comprehensive Income" in the consolidated statement of profit or loss and other comprehensive income as incurred and records cumulative remeasurements of the net defined benefit plans in "Retained Earnings" in the consolidated statement of financial position.

2. Defined Contribution Plans

The employees of the Company and certain subsidiaries are provided with defined contribution plans.

Defined contribution plans are postemployment benefit plans in which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further contributions.

The contribution payable to defined contribution plans is recognized as an expense during the period when the service is rendered.

3. Short-term Employee Benefits

Short-term employee benefits are measured on an undiscounted basis and are recognized as an expense during the period when the service is rendered.

Bonuses and paid leave accruals are recognized as liabilities for the amount estimated to be paid based on the bonus and paid leave systems, when the Anritsu Group has present legal or constructive obligations to pay, and when reliable estimates of the obligation can be made.

4. Other Long-term Employee Benefits

In addition to its pension plans, the Anritsu Group has special leave and bonus systems awarded in accordance with a defined number of years of service. Obligations for other long-term employee benefits are recorded at an amount calculated by estimating the future amount of benefits that employees have earned in exchange for their service for the previous and current years discounted to determine the present value.

The discount rates are the yields of high quality corporate bonds that have maturity terms approximating those of the Company's obligations.

5. Share-based Payment

The Anritsu Group has stock option plans and Performance-Related Stock Compensation Programs as incentive plans for directors and certain employees.

Under the stock option plans, rights to share-based payments are vested at the grant date of the share-based payment. Consequently, the fair value of stock options at the grant date is recognized as a lump-sum expense at the grant date, and the same amount is recognized as a corresponding increase in equity. The fair value of the stock options is measured using the Black-Scholes model, taking into account the terms of the options granted.

The Performance-Related Stock Compensation Program is a program to distribute a certain number of the Company's shares, which is determined based on the number of evaluation points granted taking into consideration the degree of attainment of the numeral target for the management indicator. An expense is recognized over the vesting period which is from the date when the measurement of degree of attainment starts until the date on which a right to receive the Company's shares is vested, and the same amount is recognized as a corresponding increase in equity. The amounts recognized in expense and the corresponding increase in equity are measured by reference to the fair value of the equity instruments granted. The recognized increase in equity is reversed when the Company's shares are distributed after the date on which a right to receive the Company's shares was vested.

(17) Provisions

Provisions are recognized when, as a result of past events the Anritsu Group has legal or constructive obligations that can be estimated reliably and it is probable that outflows of economic resources will be required to settle the obligations.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the time value of money and the risks specific to the liability. The unwinding of the discount with the passage of time is recorded as "Finance Costs."

1. Provision for Decommissioning, Restoration and Rehabilitation Costs

Estimated amounts for the costs of removing hazardous substances related to property, plant and equipment and restoring rented offices to the original condition are recorded in the provision for decommissioning, restoration and rehabilitation costs.

2. Provision for Product Warranties

The provision for product warranties is calculated to provide for anticipated service expenses arising within the warranty period of products sold and includes future warranty forecasts based on the actual results of past years.

(18) Government Grants

Government grants are recognized at fair value, once the collateral conditions for the grants are met and the receipt of such grants is reasonably assured.

Government grants in respect of expenses are recognized in profit or loss in the period in which expenses intended to be covered by such grants are incurred. Government grants in respect of assets are recognized by the method in which such grants are recorded as deferred income and recognized in profit or loss on a systematic basis over the useful lives of the assets concerned.

(19) Revenue

The Anritsu Group measures revenue at the fair value of the consideration received, less discounts, rebates and taxes, including consumption tax.

1. Sale of Goods

Revenue from the sale of goods is recognized when: (1) the significant risks and rewards of ownership of the goods have been transferred to the buyer; (2) there is no continuing managerial involvement with the goods; (3) it is probable that the economic benefits associated with the transaction will flow to the Anritsu Group; and (4) the costs and amount of revenue associated with the transaction can be measured reliably.

The timing of the transfer of the risks and rewards of ownership of the goods varies according to the terms of individual sales agreements, and revenue is normally recognized at the time of delivery to the customer or on the shipment date.

2. Rendering of Services

Rendering of services at the Anritsu Group consists mainly of repair and support services that arise in connection with the sale of goods. Revenue from these transactions is recognized at the time when the service is rendered or over the contract period.

3. Multi-element Transactions

A multi-element transaction under which a number of deliverables are furnished, including goods, software and support services, is separated into its individual elements if it meets both of the requirements below:

- The elements have standalone value to the customer and
- The fair value of the elements can be reliably measured.

When it is necessary to allocate the agreed consideration for a multi-element transaction between the delivered and undelivered elements, the allocation is based on the fair value of the undelivered elements. In other words, under the residual method, the amount of consideration allocated to the delivered elements is equal to the total agreed consideration less the aggregate fair value of the undelivered elements.

(20) Finance Income and Costs

Finance income comprises mainly interest income and dividend income. Finance costs comprise mainly interest payments on borrowings and corporate bonds calculated using the effective interest method. Foreign exchange gains and losses are recorded in "Finance Income" or "Finance Costs" on a net basis.

Interest income is recognized when incurred using the effective interest method. Dividend income is recognized on the date when the right to receive payment is assured. Borrowing costs that are not directly attributable to the acquisition, construction or production of qualifying assets are recognized as an expense using the effective interest method.

(21) Income Tax Expense

Income tax expense comprises current tax expense and deferred tax expense. These are recognized in profit or loss, except for taxes which arise from business combinations or that are recognized either in other comprehensive income or directly in equity.

Current tax expense is the expected tax payables and receivables on the taxable profit for the year using the tax rates enacted or substantially enacted by the end of the reporting period adjusted by tax payables or receivables in prior fiscal years.

Deferred tax assets and liabilities are recognized on temporary differences between the carrying amounts of assets and liabilities for accounting purposes and their tax bases. Deferred tax assets and liabilities are not recognized for the temporary differences below:

- Future taxable temporary differences arising from initial recognition of goodwill;
- Temporary differences relating to initial recognition of an asset or liability in a transaction which is not a business combination and, at the time of transaction, affects neither accounting profit nor taxable profit;
- Future taxable temporary differences associated with investments in subsidiaries when the Company is in a position to control the timing of the reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future; and
- Future deductible temporary differences associated with investments in subsidiaries when it is probable that such differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the temporary differences will reverse, based on tax laws that have been enacted or substantively enacted by the end of the reporting period. Deferred tax assets and deferred tax liabilities are offset when: (1) there is a legally enforceable right to offset current tax assets against current tax liabilities; and (2) income taxes are levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax assets and liabilities on a net basis or to realize the assets and settle the liabilities simultaneously.

Deferred tax assets are recognized for unused tax losses, tax credits and future deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at the end of each reporting period and recognized to the extent that it is probable that the related tax benefits will be realized.

(22) Earnings Per Share (attributable to owners of parent)

Basic earnings per share is calculated by dividing the profit attributable to owners of the parent by the weighted average number of shares in issue during the fiscal year excluding shares purchased by the Company and held as treasury stock. Diluted earnings per share are calculated by adjusting for the effect of all dilutive potential common stock.

4. Significant Accounting Estimates and Judgements

The preparation of consolidated financial statements based on IFRS requires management to make judgments, estimates and assumptions that affect the application of account policies and the reported amounts of assets, liabilities, income and expenses. Actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. The influence from revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods in which the revision has an effect.

Items requiring judgment by management that have significant effects in the consolidated financial statements are as follows:

- Impairment of Non-financial Assets (Note 15. Impairment Loss on Non-financial Assets)
- Recoverability of Deferred Tax Assets (Note 16. Income Tax Expense)
- Measurement of Defined Benefit Obligation (Note 21. Employee Benefits)
- Provisions in Accounting Method and Evaluation (Note 22. Provisions)
- Contingencies (Note 40. Contingencies)

5. New Standards and Interpretations not yet Applied

Except for IFRS 9 "Financial Instruments (revised in October 2010)," the Anritsu Group has not early applied new standards nor revised standards and interpretations for its consolidated financial statements before the fiscal year ended in March 31, 2017.

At the date of approval of the consolidated financial statements, the main standards and interpretations that were released but not early applied by the Anritsu Group are set out below. The impact of the adoption of IFRS 9 (revised in July 2014), IFRS 15 and IFRS 16 is currently being assessed but has not yet been determined. Except for these standards, the following standards and interpretations will have no material impact on its consolidated financial statements.

IFRSs	Title	Mandatory effective date (from the fiscal period that begins on or after)	To be adopted by the Anritsu Group (from the fiscal period ending)	Subject of new standards/amendment
IAS 7	Statement of Cash Flows	January 1, 2017	March 31, 2018	Amendment to disclosure requirements regarding changes in liabilities arising from financing activities
IFRS 12	Income Taxes	January 1, 2017	March 31, 2018	Clarification of the recognition of deferred tax assets for unrealized losses
IFRS 2	Shared-based Payment	January 1, 2018	March 31, 2019	Amendment on classification and measurement on shared-based payment transactions
IFRS 7	Financial Instruments: Disclosures	January 1, 2018	March 31, 2019	Clarification of the criteria on whether a servicing contract is continuing involvement in a transferred financial asset Amendment to include financial assets and liabilities designated as those to be measured at fair value through profit or loss after the initial recognition in the existing disclosure of the carrying amounts, profits and losses of the financial assets and liabilities measured at fair value through profit or loss, as well as deletion of existing disclosure rules and addition of new disclosure rules in association with the introduction of new hedge accounting
IFRS 9	Financial Instruments	January 1, 2018	March 31, 2019	Limited changes of classification of financial assets and introduction of an expected credit loss impairment model
IFRS 15	Revenue from Contracts with Customers	January 1, 2018	March 31, 2019	Provision of principles and guidance along with the expansion of disclosure items in respect of revenues from contracts with customers as well as associated issues
IFRS 16	Leases	January 1, 2019	March 31, 2020	Amendment to the accounting treatment for leases
IFRS 10	Consolidated Financial Statements	Undetermined	Undetermined	Clarification of the accounting treatment for sale or contribution of assets between an investor and its associate or joint venture
IAS 28	Investments in Associates and Joint Ventures	Undetermined	Undetermined	Clarification of the accounting treatment for sale or contribution of assets between an investor and its associate or joint venture

6. Segment Information

(1) Outline of Reportable Segment

The reportable segments of the Anritsu Group are business segments which are classified based on products and services. Each business segment operates its business activities with comprehensive strategic business plans for domestic and overseas. The Board of Directors meeting periodically makes decisions on allocation of operating resources and evaluates business performance based on segment financial information. The Anritsu Group's reportable segments are composed of "Test and Measurement" and "PQA" (Products Quality Assurance).

Main products and services by segment are as follows:

1. Test and Measurement: Measuring instruments for Digital communications and IP network, Optical communications equipment, Mobile communications equipment, RF / microwave and millimeter wave communications equipment / systems, Service assurance
2. PQA: Checkweighers, Automatic combination weighers, Inspection equipment, Comprehensive production management system

(2) Information regarding Revenue, Profit or Loss, Assets and Others by Reportable Segment

Reportable segment information of the Anritsu Group is included below.

Accounting policies for each reportable segment are the same as the accounting policies for the Anritsu Group described in Note 3.

Millions of yen

Year ended March 31, 2016 (From April 1, 2015 to March 31, 2016)	Reportable segment: Test and Measurement	Reportable segment: PQA	Reportable segment: Subtotal	Others (Note 1)	Total	Adjustment (Notes 3, 4)	Consolidated
Outside customers	¥67,729	¥18,891	¥ 86,621	¥ 8,910	¥ 95,532	¥ —	¥ 95,532
Inter-segment (Note 2)	72	3	76	4,454	4,530	(4,530)	—
Total	67,802	18,895	86,697	13,364	100,062	(4,530)	95,532
Cost of sales, Other revenue and expenses	(63,096)	(17,700)	(80,796)	(12,789)	(93,586)	3,951	(89,634)
Operating profit (loss)	4,706	1,194	5,900	575	6,476	(578)	5,897
Finance income	—	—	—	—	—	—	240
Finance costs	—	—	—	—	—	—	616
Share of profit (loss) of associates and joint ventures accounted for using equity method	—	—	—	—	—	—	(87)
Profit (loss) before tax	—	—	—	—	—	—	5,434
Income tax expense	—	—	—	—	—	—	1,667
Profit (loss) for the year	—	—	—	—	—	—	3,767
Assets	89,386	16,196	105,582	11,900	117,482	7,141	124,624
Capital expenditures	5,046	360	5,406	359	5,765	(14)	5,751
Depreciation and amortization	3,256	244	3,500	480	3,980	(10)	3,969

Notes: 1. Others: Information and Communications, Devices, Logistics, Welfare-related service, Leases on real estate, Corporate administration, Parts manufacturing and others
2. Inter-segment revenue is measured based on market price.
3. Adjustment of operating profit (-578 million yen) includes elimination of inter-segment transactions (-8 million yen) and company-wide expenses not allocated to business segments (-570 million yen). Company-wide expenses are composed mainly of basic research expense as well as selling, general and administrative expenses not attributable to business segments.
4. Adjustment of segment assets (7,141 million yen) includes excess investment capital not attributable to business segments (cash and cash equivalents), long-term investment capital (other financial assets (non-current assets)) and assets related to basic research.

Millions of yen

Year ended March 31, 2017 (From April 1, 2016 to March 31, 2017)	Reportable segment: Test and Measurement	Reportable segment: PQA	Reportable segment: Subtotal	Others (Note 1)	Total	Adjustment (Notes 3, 4)	Consolidated

Notes: 1. Others: Information and Communications, Devices, Logistics, Welfare-related service, Leases on real estate, Corporate administration, Parts manufacturing and others
2. Inter-segment revenue is measured based on market price.
3. Adjustment of operating profit (-190 million yen) includes elimination of inter-segment transactions (11 million yen) and company-wide expenses not allocated to business segments (-202 million yen). Company-wide expenses are composed mainly of basic research expense as well as selling, general and administrative expenses not attributable to business segments.
4. Adjustment of segment assets (6,906 million yen) includes excess investment capital not attributable to business segments (cash and cash equivalents), long-term investment capital (other financial assets (non-current assets)) and assets related to basic research.

(3) Information regarding Products and Service

Revenue of products and service from external customers in the previous and current fiscal years are as described in (2). The Anritsu Group does not manage business segmentation by products and services of each reporting segment.

(4) Information regarding Geographical Areas

Revenue and non-current assets (excluding financial instruments and deferred tax assets) by geographic area are indicated below. Revenue is based on geographical location of customers. Non-current assets (excluding financial instruments and deferred tax assets) are based on geographical location of the assets.

		Millions of yen
FY2015 (From April 1, 2015 to March 31, 2016)	Revenue	Non-current assets
Japan	¥28,565	¥28,385
Americas	23,246	2,813
(*United States*)	(19,199)	—
EMEA	13,537	1,373
Asia and others	30,182	573
(*China*)	(15,292)	—
Eliminations and corporate	—	(343)
Total	¥95,532	¥32,802

Notes: 1. The principal countries and regions in geographical area are as follows:
(1) Americas: United States, Canada, Mexico and Brazil
(2) EMEA: United Kingdom, France, Germany, Italy, Sweden, Spain, Denmark, Romania, Middle East and Africa
(3) Asia and others: China, Korea, Taiwan, Singapore, Australia, Thailand and India
Notes: 2. The Anritsu Group has not disclosed non-current assets (excluding financial instruments and deferred tax assets) for the United States and China as the amounts are immaterial.

		Millions of yen
FY2016 (From April 1, 2016 to March 31, 2017)	Revenue	Non-current assets
Japan	**¥29,338**	**¥27,201**
Americas	**19,633**	**3,014**

Total	**¥87,638**	**¥31,841**

Notes: 1. The principal countries and regions in geographical area are as follows:
(1) Americas: United States, Canada, Mexico and Brazil
(2) EMEA: United Kingdom, France, Germany, Italy, Sweden, Spain, Denmark, Romania, Middle East and Africa
(3) Asia and others: China, Korea, Taiwan, Singapore, Australia, Thailand and India
2. The Anritsu Group has not disclosed non-current assets (excluding financial instruments and deferred tax assets) for the United States and China as the amounts are immaterial.

(5) Information regarding Key Customers

The Anritsu Group has no revenue from transactions with a single external customer that amounts to 10% or more of revenue of the Anritsu Group.

7. Business Combinations

There are no significant business combinations to be disclosed.

8. Cash and Cash Equivalents

The balances of cash and cash equivalents in the consolidated statement of financial position as of the previous fiscal year-end and the current fiscal year-end agree to the respective balances in the consolidated statement of cash flows.

9. Trade and Other Receivables

Details of trade and other receivables are as follows:

	End of FY2015 as of March 31, 2016	End of FY2016 as of March 31, 2017
		Millions of yen
Accounts receivable–trade	¥17,797	**¥19,296**
Notes receivable–trade	1,962	**2,257**
Accounts receivable–other	69	**42**
Others	453	**455**
Less: Allowance for doubtful accounts	(205)	**(161)**
Total	¥20,078	**¥21,891**

Details in the consolidated statement of financial position are as follows:

	End of FY2015 as of March 31, 2016	End of FY2016 as of March 31, 2017
		Millions of yen
Current assets	¥19,738	**¥21,561**
Non-current assets	339	**330**
Total	¥20,078	**¥21,891**

10. Inventories

Details of inventories are as follows:

	End of FY2015 as of March 31, 2016	End of FY2016 as of March 31, 2017
		Millions of yen
Raw materials	¥ 6,410	**¥ 5,900**
Work in process	4,757	**3,983**
Finished goods	7,208	**6,721**
Total	¥18,376	**¥16,606**

Notes: 1. The losses on valuation of inventories is included in "Cost of Sales." Amounts of valuation loss included in the "Cost of Sales" are 1,821 million yen in FY2015 and 1,155 million yen in FY2016.
2. Inventories recorded in "Cost of Sales" as expenses were 42,186 million yen in FY2015 and 40,759 million yen in FY2016 (including the above losses on valuation).
3. The Company has not pledged any inventories as collateral.

11. Other Financial Assets

Details of other financial assets classified as current or non-current assets are shown below.

In this section, financial assets measured at fair value through profit or loss are presented as "Financial Assets Measured at FVTPL," while financial assets measured at fair value through other comprehensive income are presented as "Financial Assets Measured at FVTOCI."

• Current assets

	End of FY2015 as of March 31, 2016	End of FY2016 as of March 31, 2017
		Millions of yen
Time deposits with a maturity of more than 3 months (Financial assets measured at amortized cost)	¥1,150	**¥1,137**
Derivatives (Financial assets measured at FVTPL)	13	**14**
Total	¥1,163	**¥1,152**

• Non-current assets

	End of FY2015 as of March 31, 2016	End of FY2016 as of March 31, 2017
		Millions of yen
Marketable securities (Financial assets measured at FVTOCI)	¥2,395	**¥2,481**
Total	¥2,395	**¥2,481**

12. Property, Plant and Equipment

(1) Acquisition Cost, Accumulated Depreciation and Accumulated Impairment Loss on Property, Plant and Equipment

Millions of yen

Acquisition cost	Buildings and structures	Machinery and vehicles	Tools, equipment and fixtures	Land	Construction in progress	Total
Balance at April 1, 2015	¥44,904	¥11,914	¥14,182	¥3,889	¥ 86	¥74,978

Research and development expenses	831	66	—	—	**897**
Government grants	407	(27)	—	—	**380**
Others	718	117	—	—	**835**
Total deferred tax assets	¥11,288	¥ 835	¥(508)	¥—	**¥11,615**
Deferred tax liabilities:					
Property, plant and equipment	¥ 1,124	¥ (181)	¥ —	¥—	**¥ 943**
Investment securities	557	57	(28)	—	**586**
Others	1,362	999	—	—	**2,362**
Total deferred tax liabilities	¥ 3,045	¥ 875	¥ (28)	¥—	**¥ 3,892**

Note: Foreign-currency translation differences are presented as amounts recognized in profit or loss.

Details of deferred tax assets and liabilities in the consolidated statement of financial position are as follows:

Millions of yen

	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Deferred tax assets	¥8,545	**¥7,979**
Deferred tax liabilities	302	**256**

Although there are tax loss carry-forwards recognized as deferred tax assets as of the end of the previous fiscal year (March 31, 2016), and the end of the current fiscal year (March 31, 2017), the factors that caused these losses were transient and therefore unlikely to reoccur. Based on forecasts of the future taxable profit derived from the business plan that was approved by the Board of Directors, it was concluded that a tax benefit was very likely to be realized.

The amounts of future deductible temporary differences, tax loss carry-forwards, and tax credit carry-forwards for which no deferred tax assets are recognized were as follows:

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Future deductible temporary differences	¥ 8,881	**¥10,703**
Tax loss carry-forwards	8,673	**7,948**
Total	¥17,555	**¥18,651**
Tax credit carry-forwards	¥ 1,189	**¥ 1,084**

Unrecognized deferred tax assets related to the above are 5,252 million yen and 5,266 million yen at the end of the previous fiscal year (March 31, 2016) and the end of the current fiscal year (March 31, 2017), respectively.

Future deductible temporary differences and tax loss carry-forwards are measured based on a taxable profit basis, while tax credit carry-forwards is measured based on a tax basis.

The expiration period for tax loss carry-forwards for which no deferred tax assets are recognized is as follows:

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
First year	¥ 5	**¥ 27**
Second year	23	**5**
Third year	66	**21**
Fourth year	36	**62**
Fifth and subsequent years	8,541	**7,831**
Total	¥8,673	**¥7,948**

The above tax loss carry-forwards are mainly generated by foreign subsidiaries.

Although the Anritsu Group applies the consolidated taxation system in Japan, it is not applicable to regional taxes (inhabitant tax and business tax); therefore, the above amounts do not include future deductible temporary differences or tax loss carry-forwards related to such regional taxes for which no deferred tax assets are recognized. Future deductible temporary differences for regional taxes (inhabitant tax and business tax) are 10,460 million yen and 10,975 million yen at the end of the previous fiscal year (March 31, 2016) and the end of the current fiscal year (March 31, 2017), respectively. Tax loss carry-forwards related to regional taxes are 1,984 million yen for inhabitant tax and 1,967 million yen for business tax as of the end of the previous fiscal year (March 31, 2016) and 2,095 million yen for inhabitant tax and 2,115 million yen for business tax as of the end of the current fiscal year (March 31, 2017). Unrecognized deferred tax assets related to these amounts are 999 million yen and 1,049 million yen at the end of the previous fiscal year (March 31, 2016) and the end of the current fiscal year (March 31, 2017), respectively.

The expiration period for the loss carry-forwards related to inhabitant tax and business tax is 9 years.

(2) Income Tax Expense

Detailed information on Income Tax Expense is as follows:

Millions of yen

	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Current tax expense		
Current fiscal year	¥1,000	**¥924**
Adjustment for prior years	82	**(4)**
Total current tax expense	1,083	**920**
Deferred tax expense		
Origination and reversal of temporary differences	419	**86**
Change in tax rates	288	**—**
Recognition of previously unrecognized tax loss carry-forwards and temporary differences	(124)	**(113)**
Total deferred tax expenses	584	**(26)**
Total	¥1,667	**¥893**

Reconciliations of the actual and applicable tax rates are as follows:

%

	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Applicable tax rate	33.0%	**30.8%**
Non-deductible expenses	2.4	**1.2**
Effect of the different tax rates at foreign subsidiaries	(4.1)	**(3.9)**
Effect of unrecognized tax loss carry-forwards or temporary differences	(1.5)	**1.0**
Effect of change in tax rates	5.3	**—**
Tax credit	(6.9)	**(8.8)**
Uncertain tax position on income taxes for U.S. subsidiaries	0.0	**3.0**
Other	2.5	**1.3**
Actual tax rate	30.7%	**24.6%**

The Company is mainly subject to income tax, inhabitant tax and business tax. The applicable tax rates based on such were 33.0% in FY2015 and 30.8% in FY2016. Foreign subsidiaries, however, are subject to income taxes where they are located.

17. Trade and Other Payables

Details of trade and other payables are as follows:

Millions of yen

	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Accounts payable - trade	¥4,170	**¥4,557**
Accounts payable - other	2,074	**1,843**
Accrued expenses	243	**231**
Others	1,005	**893**
Total	¥7,493	**¥7,525**

Details in the consolidated statement of financial position are as follows:

Millions of yen

	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Current liabilities	¥7,133	**¥7,060**
Non-current liabilities	359	**465**
Total	¥7,493	**¥7,525**

18. Bonds and Borrowings

(1) Details of bonds and borrowings are as follows:

Current liabilities

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Short-term borrowings	¥1,590	**¥1,570**
Long-term borrowings to be repaid within one year	—	**5,995**
Total	¥1,590	**¥7,565**

Note: All of the above are financial liabilities measured at amortized cost.

Non-current liabilities

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Long-term borrowings	¥ 6,489	**¥ 6,493**
Bonds	13,945	**7,967**
Total	¥20,434	**¥14,460**

Note: All of the above are financial liabilities measured at amortized cost.

(2) The contracted terms and repayment schedule are as follows:

			Millions of yen
	Repayment deadline (average interest rates)	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Short-term borrowings	— (0.4% annually)	¥ 1,590	**¥ 1,570**
Long-term borrowings	2018–2019 (0.4% annually)	6,489	**6,493**
Fifth unsecured bonds	September 22, 2017 (0.81% annually)	5,987	**5,995**
Sixth unsecured bonds	June 19, 2020 (0.447% annually)	7,958	**7,967**
Total	—	¥22,024	**¥22,026**

Note: Maturity dates and average interest rates are as of the fiscal year ended March 31, 2017.

19. Other Financial Liabilities

In this section, financial liabilities measured at fair value through profit or loss are presented as "Financial Liabilities Measured at FVTPL."

Current liabilities

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Lease obligations (Financial liabilities measured at amortized cost)	¥52	**¥59**
Derivatives (Financial assets measured at FVTPL)	7	**13**
Total	¥60	**¥73**

Non-current liabilities

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Lease obligations (Financial liabilities measured at amortized cost)	¥81	**¥142**
Total	¥81	**¥142**

20. Lease Obligations

Total future minimum lease payments and the present value of minimum lease payments are shown below. Lease obligations are included in other financial liabilities in the consolidated statement of financial position.

				Millions of yen
	Total future minimum lease payments		Present value of minimum lease payments	
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Within 1 year	¥ 55	**¥ 61**	¥ 52	**¥ 59**
Between 1 and 5 years	81	**142**	78	**140**
Over 5 years	3	**2**	3	**2**
Total	¥140	**¥206**	¥134	**¥201**
Less: financial costs	(5)	**(4)**		
Present value of lease obligations	¥134	**¥201**	¥134	**¥201**

21. Employee Benefits

(1) Postemployment Benefits

1. Defined Benefit Plans

A retirement lump-sum payment plan and a cash-balance pension plan (that reflects market interest) have been adopted as defined benefit plans to cover the employees of the Company and certain subsidiaries. The benefits of the defined benefit plan are determined based on the number of years of service, compensation at the time of retirement and other factors. Defined benefit plans are managed by a single pension fund legally separated from the Anritsu Group. The board of trustees of the pension fund comprises six representatives on behalf of the employer.

The Anritsu Group is exposed to actuarial risks through these defined benefit plans.

The Anritsu Group plans to contribute 214 million yen in the fiscal year ending March 31, 2018. The amount contributed from the pension fund to pension assets is not included.

Amounts recognized in the consolidated statement of financial position are as follows:

			Millions of yen
	Defined benefit pension plan obligations	Plan assets	Net of defined benefit plan liabilities (Total)
Balance at April 1, 2015	¥31,570	¥(31,150)	¥ 420
Amounts recognized as profit or loss			
Service cost	983	—	983
Interest expense (income)	284	(280)	3
Total	1,267	(280)	987
Amounts recognized in other comprehensive income			
Remeasurements of the defined benefit liability			
Actuarial gains and losses arising from changes in demographic assumptions	—	—	—
Actuarial gains and losses arising from changes in financial assumptions	2,273	—	2,273
Experience adjustment	(544)	—	(544)
Return on plan assets	—	523	523
Total	1,728	523	2,252
Other			
Contributions by employer	—	(205)	(205)
Benefit paid	(1,460)	1,299	(161)
Total	(1,460)	1,093	(366)
Balance at March 31, 2016	33,106	(29,813)	3,293
Amounts recognized as profit or loss			
Service cost	1,080	—	1,080
Interest expense (income)	132	(119)	13
Total	1,212	(119)	1,093
Amounts recognized in other comprehensive income			
Remeasurements of the defined benefit liability			
Actuarial gains and losses arising from changes in demographic assumptions	534	—	534
Actuarial gains and losses arising from changes in financial assumptions	(824)	—	(824)
Experience adjustment	(520)	—	(520)
Return on plan assets	—	(829)	(829)
Total	(809)	(829)	(1,639)
Other			
Contributions by employer	—	(208)	(208)
Benefit paid	(1,530)	1,321	(209)
Total	(1,530)	1,112	(418)
Balance at March 31, 2017	¥31,978	¥(29,650)	¥2,328

The fair value of plan assets by asset class is as follows:

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Japanese bonds	¥14,804	**¥14,328**
Japanese equity securities	5,472	**5,561**
Foreign bonds	1,471	**1,384**
Foreign equity securities	3,189	**3,315**
Others	4,876	**5,060**
Total	¥29,813	**¥29,650**

Note: Every asset has a quoted price in the active market and is categorized as level 1 on the fair value hierarchy.

The principal actuarial assumptions are as follows:

		%
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Financial assumptions		
Discount rate	0.4%	**0.4%**

The weighted average durations of the defined benefit pension plan obligations are 13.8 years and 12.7 years at the previous fiscal year-end and the current fiscal year-end, respectively.

The sensitivity analysis against the Anritsu Group's material actuarial assumptions is shown below. This analysis, based on an assumption that all other variables as of the reporting period-end are constant, indicates the impact on the defined benefit pension plan obligations in case of a 0.2% appreciation or depreciation of each assumption.

		Millions of yen
	End of FY2016 as of March 31, 2017	
	0.2% increase	0.2% decrease
Financial assumptions		
Discount rate	**¥(796)**	**¥829**

Note: Although the analysis does not take account of the full distribution of cash flows expected under the pension plans, it does provide an approximation of the sensitivity of the assumptions shown.

2. Defined Contribution Plans

The amount of expense on defined contribution plans recognized as profit or loss are as follows:

		Millions of yen
	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Amount of expenses	¥625	**¥646**

Note: The amount of expense on defined contribution plans recognized as profit or loss is recorded in "Cost of sales," "Selling, general and administrative expenses," and "Research and development expense."

(2) Other Employee Benefits

Short-term employee benefits and long-term employee benefits (other than ones related to defined benefit plans) presented in the consolidated statement of financial position are as follows:

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Employee benefits (current liabilities)	¥5,606	**¥5,427**
Employee benefits (non-current liabilities)	997	**860**

22. Provisions

Details of and changes in provisions are as follows:

Millions of yen

	Provision for decommissioning, restoration and rehabilitation costs	Provision for product warranties	Total
Balance at April 1, 2016	¥109	¥254	¥363
Increase during the year	**2**	**109**	**111**
Decrease due to intended use	**(4)**	**(80)**	**(84)**
Reversal during the year	**—**	**(9)**	**(9)**
Increase due to passage of time	**1**	**0**	**1**
Exchange differences on translation	**(0)**	**(3)**	**(3)**
Balance at March 31, 2017	**¥108**	**¥271**	**¥379**

Details in the consolidated statement of financial position are as follows:

Millions of yen

	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Current liabilities	¥254	**¥273**
Provision for decommissioning, restoration and rehabilitation costs	—	**1**
Provision for product warranties	254	**271**
Noncurrent liabilities	108	**106**
Provision for decommissioning, restoration and rehabilitation costs	108	**106**
Total	¥363	**¥379**

23. Government Grants

Details of government grants are as follows:

Millions of yen

	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Government grants for Koriyama 2nd Business Office (Note 1)		
Other liabilities – Current	¥ 79	**¥ 79**
Other liabilities – Non-current	1,136	**1,056**
Total	1,215	**1,136**
Other government grants		
Other liabilities – Current	8	**8**
Other liabilities – Non-current	107	**99**
Total	¥ 116	**¥ 107**

Notes: 1. The government grants for the Koriyama 2nd Business Office are the grants on condition that a plant is to be acquired or established in a specified region. The recognized grants have been amortized over the useful life of each subject asset for which the grants are provided (not exceeding 38 years). Under the terms and conditions of the grants, the Anritsu Group is prohibited from disposing of the subject assets for which the grants are provided during the period scheduled in the Appended Table of the "Ministerial Ordinance Concerning the Useful Life of Depreciable Assets."

2. Government grants are recorded in "Other liabilities - Current" and "Other liabilities - Non-current" in the consolidated statement of financial position.

24. Total Equity and Other Capital Items

(1) Number of Issued Shares and Treasury Stock

	Balance at March 31, 2016	**Balance at March 31, 2017**
The classification of shares	Ordinary shares with no par-value	**Ordinary shares with no par-value**
Number of authorized shares	400,000,000	**400,000,000**
Number of issued shares	138,115,294	**138,115,294**
Treasury stock		
Balance at beginning of fiscal year	643,983	**838,609**
Purchase of treasury stock (Note 1)	227,226	**343**
Distribution of treasury stock (Note 2)	(32,600)	**(32,400)**
Balance at end of fiscal year	838,609	**806,552**

Notes: 1. The increase in the treasury stock purchased in the current fiscal year is due to purchase of shares less than one unit. Out of the treasury stock purchased in the previous fiscal year, 226,300 shares are the purchase in the trust account concerning Trust for Distribution of Shares to Officers in accordance with the Performance-Related Stock Compensation Program. The remaining 926 shares are the increase due to purchase of shares less than one unit.
2. The distribution of treasury stock in the current fiscal year is the distribution of the Company's shares to Directors, Vice Presidents and Executive Officers of the Company in accordance with the Performance-Related Stock Compensation Program.

(2) Additional Paid-in Capital

The main components of additional paid-in capital are as follows:

1. Capital Surplus

Japan's Company Law requires at least a half of contributions for the issuance of shares be classified as common stock, with the remaining portion to be classified common stock as capital surplus.

2. Equity Elements of Compound Financial Instruments

These are amounts classified as capital elements upon issuance and redemption of bonds with subscription rights to shares.

(3) Retained Earnings

Retained earnings comprise the following categories

1. Legal Earnings Reserve

The Company Law provides that a 10% dividend of retained earnings shall be appropriated as additional paid-in capital or the legal reserve until an aggregate amount of additional paid-in capital and the legal reserve equals 25% of common stock.

2. Cumulative Translation Differences at Transition Date

The cumulative translation differences of foreign operations at the date of transition to IFRS are deemed zero as a result of the exemption under the first-time adoption of IFRS.

3. Remeasurement of Defined Benefit Plans

Remeasurements of the defined benefit plans comprise actuarial gains (losses), the return on plan assets excluding the net interest on the net defined benefit liabilities and any changes in the effect of the asset ceiling. Actuarial gains (losses) are adjustments resulting from the effects of changes in actuarial assumptions and experience adjustments (the effects of differences between the previous actuarial assumptions and what has actually occurred). The return on plan assets refers to the income derived from the plan assets, while changes in the effect of the asset ceiling refer to the adjustments from changes in the present value of the future economic benefit available to the entity in the form of a refund from the plan or a reduction in future contributions to the plan in the event of overfunding where the fair value of the plan assets exceeds the present value of defined benefit liabilities. The return on plan assets and changes in the effect of the asset ceiling are recognized in a remeasurement of the defined benefit plans after excluding amounts included in net interest on the defined benefit liability, which is determined based on the discount rate used to calculate the present value of the defined benefit obligation and is recognized through profit or loss.

In accordance with IAS 19 "Employee Benefits," the Anritsu Group recognizes all actuarial gains and losses in other comprehensive income in the period in which they are incurred and immediately reclassifies them to retained earnings.

4. Other Retained Earnings

These include the general reserve and retained earnings brought forward. These accounts represent the Anritsu Group's cumulative earnings.

(4) Other Components of Equity

The details of other components of equity are as follows:

1. Translation Differences for Foreign Operations

These are translation differences arising from the translation of the financial statements of foreign operations.

The balances of translation differences for foreign operations at the beginning and end of previous and current periods are as follows:

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Balance at beginning of fiscal year	¥7,435	**¥5,606**
Balance at end of the fiscal year	5,606	**4,953**

2. Changes in Financial Assets Measured at Fair Value through Other Comprehensive Income

These are the differences between the acquisition costs and fair values of financial assets measured at FVTOCI, which are generated until the relevant financial assets are derecognized.

The balances of changes in financial assets measured at fair value through other comprehensive income at the beginning and end of previous and current periods are as follows:

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Balance at beginning of fiscal year	¥238	**¥779**
Balance at end of the fiscal year	779	**841**

25. Dividends

• Year ended March 31, 2016

(1) Amount of dividend paid

		Millions of yen	Yen		
Resolution	Classes of shares	Total dividends	Dividends per share	Record date	Effective date
June 25, 2015 Ordinary general meeting of shareholders	Ordinary shares	¥1,649	¥12.00	March 31, 2015	June 26, 2015
October 29, 2015 Board of Directors meeting	Ordinary shares	1,649	12.00	September 30, 2015	December 2, 2015

Note: Total dividends approved at the Board of Directors meeting held on October 29, 2015 included dividends of 2 million yen paid to the treasury stock held by the trust account for distribution of shares to officers.

(2) Amount of dividends in which the record date belongs to the fiscal year ended March 31, 2016, whereas its effective date belongs to the following fiscal year

		Millions of yen		Yen		
Resolution	Classes of shares	Total dividends	Sources of dividends	Dividends per share	Record date	Effective date
June 28, 2016 Ordinary general meeting of shareholders	Ordinary shares	¥1,649	Retained earnings	¥12.00	March 31, 2016	June 29, 2016

Note: Total dividends approved at the ordinary general meeting of shareholders held on June 28, 2016 included dividends of 2 million yen paid to the treasury stock held by the trust account for distribution of shares to officers.

• Year ended March 31, 2017

(1) Amount of dividend paid

Resolution	Classes of shares	Millions of yen Total dividends	Yen Dividends per share	Record date	Effective date
June 28, 2016 Ordinary general meeting of shareholders	**Ordinary shares**	**¥1,649**	**¥12.00**	**March 31, 2016**	**June 29, 2016**
October 27, 2016 Board of Directors meeting	**Ordinary shares**	**1,031**	**7.50**	**September 30, 2016**	**December 2, 2016**

Note: Total dividends approved at the ordinary general meeting of shareholders held on June 28, 2016 included dividends of 2 million yen paid to the treasury stock held by the trust account for distribution of shares to officers. Total dividends approved at the Board of Directors meeting held on October 27, 2016 included dividends of 1 million yen paid to the treasury stock held by the trust account for distribution of shares to officers.

(2) Amount of dividends in which the record date belongs to the fiscal year ended March 31, 2017, whereas its effective date belongs to the following fiscal year

Resolution	Classes of shares	Millions of yen Total dividends	Sources of dividends	Yen Dividends per share	Record date	Effective date
June 28, 2017 Ordinary general meeting of shareholders	**Ordinary shares**	**¥1,031**	**Retained earnings**	**¥7.50**	**March 31, 2017**	**June 29, 2017**

Note: Total dividends approved at the ordinary general meeting of shareholders held on June 28, 2017 included dividends of 1 million yen paid to the treasury stock held by the trust account for distribution of shares to officers.

26. Revenue

Details of revenue are as follows:

	FY2015 (From April 1, 2015 to March 31, 2016)	Millions of yen **FY2016 (From April 1, 2016 to March 31, 2017)**
Revenue from products	¥78,430	**¥70,529**
Revenue from services	17,101	**17,108**
Total	¥95,532	**¥87,638**

27. Selling, General and Administrative Expenses

Details of selling, general and administrative expenses are as follows:

	FY2015 (From April 1, 2015 to March 31, 2016)	Millions of yen **FY2016 (From April 1, 2016 to March 31, 2017)**
Personnel expenses	¥19,286	**¥17,701**
Travel and transportation expenses	1,860	**1,676**
Advertising expenses	1,750	**1,218**
Depreciation and amortization expenses	1,131	**1,262**
Others	5,593	**5,340**
Total	¥29,621	**¥27,198**

28. Research and Development Expense

Details of research and development expense are as follows:

	Millions of yen	
	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Material expenses	¥ 2,829	**¥ 2,379**
Personnel expenses	8,717	**7,365**
Others	1,273	**1,161**
Total	¥12,820	**¥10,906**

29. Personnel Expenses

Details of personnel expenses are as follows:

	Millions of yen	
	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Wages and salaries	¥33,152	**¥30,203**
Welfare expenses	6,937	**6,372**
Retirement benefit expense	1,612	**1,740**
Others	1,882	**1,488**
Total	¥43,585	**¥39,804**

Note: Personnel expenses are recorded in "Cost of sales," "Selling, general and administrative expenses," and "Research and development expense."

30. Other Income and Other Expenses

Details of other income are omitted.

Details of other expenses are as follows:

	Millions of yen	
	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Business structure improvement expenses	¥697	**¥237**
Loss on disposal or sale of property, plant and equipment	31	**18**
Others	147	**79**
Total	¥876	**¥336**

31. Finance Income and Costs

Details of finance income are shown below.

In this section, financial assets measured at fair value through other comprehensive income are referred to as "Financial Assets Measured at FVTOCI."

	Millions of yen	
	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Interest income:		
Financial assets measured at amortized cost	¥119	**¥136**
Dividends income:		
Financial assets measured at FVTOCI	98	**52**
Other	21	**4**
Total	¥240	**¥193**

Details of finance costs are as follows:

	Millions of yen	
	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Interest expenses:		
Financial liabilities measured at amortized cost	¥166	**¥158**
Foreign exchange losses	397	**413**
Other	51	**226**
Total	¥616	**¥798**

32. Other Comprehensive Income

The components of other comprehensive income in the previous fiscal year and the current fiscal year are shown below.

In this section, financial assets measured at fair value through other comprehensive income are referred to as "Financial Assets Measured at FVTOCI."

	Millions of yen

Diluted earnings per share	27.38	**19.65**

34. Non-cash Transactions

Details of non-cash transactions are as follows:

	FY2015 (From April 1, 2015 to March 31, 2016)	FY2016 (From April 1, 2016 to March 31, 2017)
	Millions of yen	
Acquisition of assets through finance leases	¥30	**¥127**
Total	¥30	**¥127**

35. Share-based Payment

The Anritsu Group has a stock option plan and a Performance-Related Stock Compensation Program. The objectives of these plans are to motivate the directors and employees of the Company and its subsidiaries to improve business performances, encourage management in keeping with the interests of shareholders and stock prices and boost the Anritsu Group's corporate value.

(1) Details of the stock option plan (Equity-settled, Share-based Payment)

Under this plan, blocks of 100 ordinary shares (blocks of 1,000 shares for the fiscal year ended March 31, 2013 or before) with subscription warrants are granted at no charge to recipients as of the grant date. The exercise price of these warrants is 1.05 multiplied by the average closing price (with fractions of less than one yen rounded up) in regular trading of the Company's ordinary shares on the Tokyo Stock Exchange on each day (excluding days on which there are no transactions) of the month prior to the allotment date of the subscription warrants. If, however, the amount is less than the closing price (or if there are no trades, the immediately preceding closing price) of regular trading of the Company's ordinary shares on the subscription warrant allotment date, the exercise price shall be the relevant closing price.

The exercise period is determined in the allocation agreement. The relevant options expire if not exercised during that period. Grant recipients must be directors or employees of the Company or its subsidiaries, including when exercising the options. Recipients losing status by resigning or retiring during the options' exercise period may exercise the options for up to one year after such loss of status. Recipients of No. 8 and No. 9 stock options granted on September 1, 2011, losing their positions by resigning or retiring by August 31, 2014, may exercise the options for up to one year from September 1, 2014. Recipients of No. 10 and No. 11 stock options granted on August 20, 2012, losing their positions by resigning or retiring by August 20, 2015, may exercise the options for up to one year from August 21, 2015. Recipients of No. 12 and No. 13 stock options granted on August 21, 2013, losing their positions by resigning or retiring by August 21, 2016, may exercise the options for up to one year from August 22, 2016. Recipients of No. 14 and No. 15 stock options granted on September 1, 2014, losing their positions by resigning or retiring by August 31, 2017, may exercise the options for up to one year from September 1, 2017.

The Anritsu Group's stock option plans for the current fiscal years are as follows:

	Number of shares granted	Grant date	Exercise period	Yen Exercise price
No. 8	82,000	September 1, 2011	September 1, 2014 through August 31, 2016	¥ 908
No. 9	124,000	September 1, 2011	September 1, 2014 through August 31, 2016	908
No. 10	41,000	August 20, 2012	August 21, 2015 through August 20, 2017	1,002
No. 11	110,000	August 20, 2012	August 21, 2015 through August 20, 2017	1,002
No. 12	42,000	August 21, 2013	August 22, 2016 through August 21, 2022	1,295
No. 13	190,000	August 21, 2013	August 22, 2016 through August 21, 2022	1,295
No. 14	42,000	September 1, 2014	September 1, 2017 through August 31, 2023	956
No. 15	85,500	September 1, 2014	September 1, 2017 through August 31, 2023	956

The total number of exercisable shares and average exercise price for the previous and current fiscal years are as follows:

	Number of shares	Yen Weighted average exercise price	Number of shares	Yen Weighted average exercise price
	FY2015 (From April 1, 2015 to March 31, 2016)		**FY2016** **(From April 1, 2016 to March 31, 2017)**	
Outstanding balance at beginning of fiscal year	716,500	¥1,062	**680,500**	**¥1,069**
Granted during year	—	—	**—**	**—**
Cancelled during year	36,000	908	**20,000**	**1,002**
Exercised during year	—	—	**—**	**—**
Matured and expired during year	—	—	**170,000**	**908**
Outstanding balance at end of fiscal year	680,500	1,069	**490,500**	**1,128**
Options exercisable at end of year	321,000	952	**363,000**	**1,189**

The exercise prices of stock options unexercised at the end of the previous fiscal year ranged from 908 yen to 1,295 yen. The weighted average remaining contractual period was 4.0 years. There were no stock options exercised during the previous fiscal year.

The exercise prices of stock options unexercised at the end of the current fiscal year ranged from 1,002 yen to 1,295 yen. The weighted average remaining contractual period was 4.3 years. There were no stock options exercised during the current fiscal year.

The Company adopts the Black-Scholes model to assess the fair value of stock options. The assumptions used to measure fair value are shown below. The projected volatility is calculated by collecting daily share price information based on the most recent period corresponding to the expected length of time since the grant date.

	Yen No. 8 and No. 9	No. 10 and No. 11	No. 12 and No. 13	No. 14 and No. 15
Fair value at the grant date	¥ 309	¥ 292	¥ 352	¥ 199
Share price at the grant date	895	968	1,260	885
Exercise price	908	1,002	1,295	956
Projected volatility (%)	48.30	45.80	39.10	36.40
Expected remaining period (years)	3.9	3.9	4.8	4.8
Dividend yield (%)	0.78	1.55	1.59	2.26
Risk-free rate (%)	0.26	0.15	0.26	0.15

(2) Details of Performance-Related Stock Compensation Program (Equity-settled, Share-based Payment)

This is a performance-related stock compensation program to distribute a certain number of the Company's shares acquired through a trust established based on underlying funds contributed by the Company to Directors, Vice Presidents and Executive Officers of the Company through the trust from FY2015 to FY2018. The number of the Company's shares to be distributed is based on the number of evaluation points granted in accordance with the "Rules on Distribution of Shares to Officers" established by the Board of Directors of the Company.

The evaluation points are granted in May every year (only for the initial year, they are granted in July 2015) and the number of evaluation points granted is calculated by dividing (a) the amount obtained by multiplying (i) the base amount for distribution by title granted in accordance with the "Rules on Distribution of Shares to Officers" instituted by the Board of Directors of the Company by (ii) a factor representing the degree of contribution to the Company's performance, consisting of the degree of attainment of numeral targets regarding the management indicator set by the Company and another degree of attainment of managerial goals including non-financial aspects, set in advance, by (b) the Base Stock Price.

Each Director, Vice President or Executive Officer who satisfies the beneficiary requirements receives from the Trust a certain number of Company shares corresponding to the determined evaluation points granted in May, in accordance with a prescribed procedure for determination of beneficiary in June of the year in which the evaluation points are granted (only for the initial year, such procedure is carried out in August 2015). There is no exercise price since the program is to distribute the Company's shares.

In order to satisfy the beneficiary requirements under the Program, the beneficiary must be a Director, Executive Officer or Vice President of the Company and must not fall under either of the conditions below.

1. Persons who have voluntarily resigned from the position of Director, Executive Officer or Vice President of the Company prior to the date on which his/her right to receive shares was vested.
2. Persons who have been dismissed or who have resigned from the position of Director, Executive Officer or Vice President of the Company prior to the date on which his/her right to receive shares was vested as a result of having caused damage to the Company.

The Company accounts for the share-based payments under the program as equity-settled, share-based payments and an expense is recognized over the vesting period. The amount recognized in expenses is measured by reference to the fair value of the equity instruments granted and the amounts recognized as expenses for the Performance-Related Stock Compensation Program is 43 million yen in the previous fiscal year (From April 1, 2015 to March 31, 2016) and 26 million yen in the current fiscal year (From April 1, 2016 to March 31, 2017). (Of the amounts recognized as expenses, 28 million yen is associated with the shares distributed in the previous fiscal year and the remaining 14 million yen is associated with the shares to be distributed in the fiscal year ended March 31, 2017. Of the amounts recognized as expenses, 4 million yen is associated with the shares distributed in the current fiscal year and the remaining 21 million yen is associated with the shares to be distributed in the fiscal year ending March 31, 2018.)

An outline of the Company shares distributed to the Directors, Executive Officers and Vice Presidents of the Company is as follows:

	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Number of shares granted	32,600	**32,400**
Grant date	August 7, 2015	**May 20, 2016**
Fair value at the grant date (Yen)	¥880	**¥596**

Fair value is measured on the basis of observable market prices. Expected dividends are not taken into account due to the proximity of the grant date to the exercise date.

Changes in the number of evaluation points that form the basis for the distribution of the Company shares are as follows:

	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Balance at beginning of fiscal year	—	**—**
Granted during year	32,600	**32,400**
Exercised during year	(32,600)	**(32,400)**
Cancelled during year	—	**—**
Balance at end of fiscal year	—	**—**

36. Financial Instruments

In this section, financial assets measured at fair value through profit or loss are referred to as "Financial Assets measured at FVTPL," financial assets measured at fair value through other comprehensive income are referred to as "Financial Assets Measured at FVTOCI," and financial liabilities measured at fair value through profit or loss are referred to as "Financial Liabilities measured at FVTPL."

(1) Capital Management

The Anritsu Group aims to maximize corporate value and prioritizes cash flows in management using the proprietary "ACE (see note)" metric to assess the results of each business by evaluating the added value generated by capital invested.

The Anritsu Group prioritizes the following capital management benchmarks.

- ACE improvements (see note) (Achievement of net operating profit after tax less an adjustment for the cost of capital)
- Asset turnover improvements
- Cash management system to reduce interest-bearing debt
- Debt-to-equity ratio (see note) improvements
- Enhancing shareholders' equity and the dividends on equity (DOE)

Note: ACE (Anritsu Capital-cost Evaluation): Net operating profit after tax – Cost of capital
Debt-to-equity ratio: Interest-bearing debt / Shareholders' equity

The Anritsu Group is not subject to significant externally imposed capital regulations.

(2) Market Risks

The Anritsu Group's activities are exposed to market risks stemming from fluctuations in the economic and financial environments. These risks relate specifically to interest rates, foreign currency exchange and changes in the prices of equity instruments.

1. Interest Rate Risk

Some borrowings are subject to floating interest rates and therefore exposed to interest rate fluctuation risks. The Anritsu Group uses derivatives (interest rate swaps) as hedges to fix the rate of interest and thereby manage risks.

• Sensitivity Analysis for Borrowings subject to Floating Rate

The Anritsu Group's sensitivity analysis to interest rate exposure is shown below. This analysis assumes that all other variables are constant and presents the impact on profit (loss) before tax in the consolidated statement of profit or loss and other comprehensive income in case of a 1% increase or decrease in interest rates. The analysis below shows sensitivity with respect to the outstanding balance of borrowings subject to the floating rate after excluding portions for which interest rates are substantially fixed as a result of interest rate swaps.

	Millions of yen	
End of FY2015 as of March 31, 2016	1% increase	1% decrease
Profit (loss) before tax	¥(45)	¥45

	Millions of yen	
End of FY2016 as of March 31, 2017	1% increase	1% decrease
Profit (loss) before tax	**¥(45)**	**¥45**

2. Foreign Currency Exchange Risk

The Anritsu Group operates globally and is therefore exposed to foreign currency exchange risks on transactions that are denominated in a currency other than the respective functional currencies of group companies. The primary currencies in such transactions are the Japanese yen, the U.S. dollar and the Euro.

Although trade receivables denominated in foreign currencies are exposed to exchange rate fluctuations, the Company and some consolidated subsidiaries generally use forward exchange contracts to hedge the risk of currency fluctuations. The Anritsu Group is also exposed to foreign currency exchange risk for trade payables from transactions that are denominated in foreign currencies for raw materials and other imports.

The Anritsu Group's exposures to foreign currency exchange risk is as follows.

			Millions of yen
End of FY2015 as of March 31, 2016	Japanese yen	U.S. dollar	Euro
Net exposure	¥219	¥7,423	¥564
(in thousands of units of relevant currency)	(—)	(US$65,919 thousand)	(€4,431 thousand)

			Millions of yen
End of FY2016 as of March 31, 2017	Japanese yen	U.S. dollar	Euro
Net exposure	**¥(220)**	**¥6,401**	**¥747**
(in thousands of units of relevant currency)	**(—)**	**(US$57,061 thousand)**	**(€6,240 thousand)**

• Sensitivity Analysis for Foreign Currency

The Anritsu Group's sensitivity analysis to foreign currency exchange exposure is shown below. This analysis assumes that all other variables are constant and presents the foreign currency exposure impact on profit (loss) before tax in the consolidated statement of profit or loss and other comprehensive income in case of a 1% appreciation of the Japanese yen as of the reporting date. The analysis below shows only the translation impact. The projected revenue, goods purchases and other impacts are not taken into consideration.

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Japanese yen	¥ 2	**¥ (2)**
U.S. dollar	(74)	**(64)**
Euro	(5)	**(7)**

Note: The impact of the Japanese yen on profit or loss stems from the yen-denominated financial assets or liabilities held by foreign subsidiaries.

3. Risk of Equity Instrument Price Fluctuations

The Anritsu Group owns listed shares of companies with which it has business relationships, and is exposed to the risk of price fluctuations of the equity instruments. The Anritsu Group regularly conducts financial evaluations of market prices and issuers (companies with which it conducts transactions) and conducts ongoing reviews of its holdings of these shares.

• Sensitivity Analysis for Equity Instruments

The Anritsu Group's sensitivity analysis to fluctuations in equity instrument prices is shown below. This analysis assumes that all other variables are constant and presents the impact of a 10% decline in the prices of listed shares on other comprehensive income (after tax effect) in the consolidated statement of profit or loss and other comprehensive income.

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Other comprehensive income	¥(83)	**¥(89)**

(3) Credit Risk

Credit risk is the Anritsu Group's risk of financial losses if a customer or financial instrument counterparty cannot fulfill contractual obligations.

The credit risks for transactions in cash and cash equivalents are limited because they are with financial institutions that have high credit standings.

The Anritsu Group is exposed to credit risks from customers for trade and other receivables. In keeping with its credit management regulations, the Company addresses the risks for trade and other receivables by having its sales management department regularly monitor situations with key business partners and manage due dates and balances for each of these partners while swiftly identifying and reducing recovery concerns stemming from deteriorating financial positions. Consolidated subsidiaries perform similar oversight in keeping with the Company's credit management rules.

The Anritsu Group is exposed to the credit risks of financial institutions with which it has contracted for derivatives included in other financial assets and other financial liabilities. The possibility of breaches of contract is considered minimal because agreements for these financial instruments are only with financial institutions with high quality credit standings.

The Anritsu Group is exposed to the credit risks of parties for which it makes loan guarantees, but these risks are limited to the Anritsu Group's employees and subsidiaries.

The carrying value of financial assets, net of impairment losses, in the consolidated statement of financial position and the amounts of guarantee obligations recorded in Note 40, "Contingencies," are the maximum exposure to credit risk, without taking valuations of credit enhancements into consideration.

The aging analyses of trade and other receivables which are past due but not written down are as follows:

	Millions of yen	
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Within 30 days past due	¥1,115	**¥1,013**
Within 6 months past due	626	**942**
Within 1 year past due	62	**270**
Total	¥1,804	**¥2,227**

The above shows the carrying value before allowance for doubtful accounts. For trade and other receivables, there are certain deposits received as credit enhancements (359 million yen in the previous fiscal year and 401 million yen in the current fiscal year).

Changes in the allowance for doubtful accounts are as follows:

	Millions of yen	
	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Balance at beginning of fiscal year	¥349	**¥205**
Provisions	114	**73**
Amount used	(133)	**(7)**
Other	(125)	**(109)**
Balance at end of fiscal year	¥205	**¥161**

Some trade and other receivables that were individually uncollectible after considering customer financial positions, the status of payment delays and other factors were 57 million yen at the end of the previous fiscal year and 70 million yen at the end of the current fiscal year. The allowance for doubtful accounts is set up in full for these uncollectible amounts.

(4) Liquidity Risk

Liquidity risk is the risk that the Anritsu Group will encounter difficulty in meeting the obligations relating to its financial liabilities that are settled by delivering cash or other financial assets.

Although trade and other payables, bonds and borrowings and other financial liabilities are exposed to liquidity risks, the Anritsu Group manages these risks by producing and updating timely funding plans while maintaining liquidity in hand and facility of borrowings from financial institutions.

The analysis below shows the remaining contractual maturities of financial liabilities at the end of the reporting period. The stated contractual cash flows are on an undiscounted basis, including interest payments.

								Millions of yen
End of FY2015 as of March 31, 2016	Carrying amounts	Contractual cash flow	1 year or less	Between 1 and 2 years	Between 2 and 3 years	Between 3 and 4 years	Between 4 and 5 years	Over 5 years
Non-derivative financial liabilities:

Bonds and borrowings	22,024	22,423	1,711	6,089	3,059	3,545	8,017	—
Other financial liabilities	134	139	55	33	26	16	5	3
Guarantee obligations	—	613	465	20	20	19	17	69
Derivative financial liabilities:								
Other financial liabilities	7	7	7	—	—	—	—	—
Total	¥29,660	¥30,678	¥9,373	¥6,143	¥3,106	¥3,580	¥8,041	¥431

Millions of yen

End of FY2016 as of March 31, 2017	Carrying amounts	Contractual cash flow	1 year or less	Between 1 and 2 years	Between 2 and 3 years	Between 3 and 4 years	Between 4 and 5 years	Over 5 years
Non-derivative financial liabilities:								
Trade and other payables	¥ 7,525	¥ 7,525	¥ 7,124	¥ —	¥ —	¥ —	¥—	¥401
Bonds and borrowings	22,026	22,286	7,664	3,059	3,545	8,017	—	—
Other financial liabilities	201	206	61	53	43	32	13	2
Guarantee obligations	—	559	448	18	17	17	13	43
Derivative financial liabilities:								
Other financial liabilities	13	13	13	—	—	—	—	—
Total	¥29,767	¥30,592	¥15,312	¥3,131	¥3,606	¥8,068	¥26	¥447

(5) Presentation of Offsetting Financial Assets and Financial Liabilities

Financial assets recognized in the consolidated statement of financial position were 61,029 million yen in the previous fiscal year and 65,207 million yen in the current fiscal year, while financial liabilities recognized likewise were 29,660 million yen in the previous fiscal year and 29,767 million yen in the current fiscal year. These financial assets and financial liabilities are not offset.

(6) Fair Value

1. Fair Value and Carrying Amounts

The fair values and carrying values in the consolidated statement of financial position of financial assets and liabilities are as follows:

Millions of yen

	End of FY2015 as of March 31, 2016		End of FY2016 as of March 31, 2017	
	Carrying amounts	Fair value	Carrying amounts	Fair value
Assets measured at fair value				
Financial assets measured at FVTOCI:				
Other financial assets	¥ 2,395	¥ 2,395	¥ 2,481	¥ 2,481
Financial assets measured at FVTPL:				
Other financial assets	13	13	14	14
Assets measured at amortized cost:				
Cash and cash equivalents	37,391	37,391	39,682	39,682
Trade and other receivables	20,078	20,078	21,891	21,891
Other financial assets	1,150	1,150	1,137	1,137
Liabilities measured at fair value				
Financial liabilities measured at FVTPL:				
Other financial liabilities	7	7	13	13
Liabilities measured at amortized cost:				
Trade and other payables	7,493	7,493	7,525	7,525
Bonds and borrowings	22,024	22,195	22,026	22,115
Other financial liabilities	134	138	201	203

2. Fair Value Calculation Method for Financial Instruments

• Cash and Cash Equivalents, Trade and Other Receivables, and Trade and Other Payables

Current items of cash and cash equivalents, trade and other receivables and trade and other payables are settled in a short period, and non-current items are subject to a market interest rate. Therefore, the carrying amounts of these financial instruments are at approximate reasonable fair values.

• Other Financial Assets and Other Financial Liabilities

For time deposits with original maturities of over three months, their carrying amounts reasonably approximate fair value as they are settled in a short period.

Investment securities are treated as financial assets measured at FVTOCI; listed shares are measured at market prices from the stock exchange; and the value of unlisted shares is determined based on comparable company valuation multiples (a method of determining multiples of various financial figures against the market stock price of similar listed companies, adjusted as necessary).

Derivatives, as financial assets or liabilities measured at FVTPL, are measured based on prices provided by correspondent financial institutions.

Lease obligations are measured by discounting the future cash flows using a discount rate to be applied in the case where a similar type of contract is newly entered into.

• Bonds and Borrowings

Borrowings are measured by discounting the future cash flows using a discount rate to be applied in the case where a similar type of contract is newly entered into.

Straight bonds are measured based on prices provided by correspondent financial institutions.

3. Fair Value Measurements Recognized in the Financial Statements

Below is an analysis for financial instruments recognized at fair value by the levels of the fair value hierarchy. The different levels have been defined as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for assets or liabilities, either direct or indirectly.

Level 3: Inputs for assets and liabilities that are not based on observable market data.

• Financial instruments measured at the fair value

				Millions of yen
End of FY2015 as of March 31, 2016	Level 1	Level 2	Level 3	Total
Financial assets measured at FVTOCI:				
Other financial assets	¥1,196	¥—	¥1,198	¥2,395
Financial assets measured at FVTPL:

Note: During the current fiscal year, there were no significant transfers between the Level 1 or Level 2 of the fair value hierarchy.

• Reconciliation from the beginning balances to the ending balances of financial instruments classified in Level 3 of the fair value hierarchy.

End of FY2015 as of March 31, 2016	Millions of yen Financial assets measured at FVTOCI
Balance at beginning of fiscal year	¥1,256
Other comprehensive income	35
Acquisition	—
Disposal	(92)
Balance at end of fiscal year	¥1,198

End of FY2016 as of March 31, 2017	Millions of yen Financial assets measured at FVTOCI
Balance at beginning of fiscal year	**¥1,198**
Other comprehensive income	**(3)**
Acquisition	**—**
Disposal	**—**
Balance at end of fiscal year	**¥1,195**

Although the Anritsu Group uses comparable company valuation multiples to measure the fair values of unlisted shares, the result of such measurements of fair value may differ from the one provided by other techniques such as valuation models based on undiscounted future cash flows or net assets. In a calculation under the comparable company valuation multiples technique, multiple listed companies are constantly selected for comparison. In addition, an illiquidity discount is taken into consideration in the calculation.

(7) Details of Financial Assets Measured at FVTOCI

The fair values of major stocks included in "Other Financial Assets measured at FVTOCI" held as of the end of the previous fiscal year and the end of the current fiscal year were as follows:

End of FY2015 as of March 31, 2016	Millions of yen
Listed shares	
NEC Corporation	¥ 261
KDDI Corporation	559
Kyowa Exeo Corporation	150
Others	225
Listed shares subtotal	1,196
Unlisted shares	
Communication equipment industry	517
Leasing industry	321
Others	359
Unlisted shares subtotal	1,198
Total	¥2,395

End of FY2016 as of March 31, 2017	Millions of yen
Listed shares	
NEC Corporation	**¥ 248**
KDDI Corporation	**543**
Kyowa Exeo Corporation	**193**
Others	**300**
Listed shares subtotal	**1,286**
Unlisted shares	
Communication equipment industry	**582**
Leasing industry	**249**
Others	**363**
Unlisted shares subtotal	**1,195**
Total	**¥2,481**

Dividends on investments held as of the fiscal year-end were 54 million yen and 52 million yen in the previous fiscal year and current fiscal year, respectively.

For fair value measurement in Level 3 of the fair value hierarchy, changing one or more reasonably possible alternative assumptions could have some effects. The effect on other comprehensive income (after tax effect) resulting from changing the illiquidity discount within the range of plus or minus 10% is as follows:

	End of FY2015 as of March 31, 2016		**End of FY2016 as of March 31, 2017**	
Millions of yen	Beneficial impact	Adverse impact	Beneficial impact	Adverse impact
Other comprehensive income	¥118	¥(118)	**¥117**	**¥(117)**

(8) Derecognition of Financial Assets Measured at FVTOCI

"Other Financial Assets measured at FVTOCI" derecognized during the previous fiscal year and current fiscal year are as follows:

FY2015 (From April 1, 2015 to March 31, 2016)	Fair value at the time of derecognition	Cumulative gains or losses	Dividend income
	¥137	¥(427)	¥44

Millions of yen

Note: During the current fiscal year, the cumulative loss (after tax) of 289 million yen was reclassified from other components of equity to retained earnings.

FY2016 (From April 1, 2016 to March 31, 2017)	Fair value at the time of derecognition	Cumulative gains or losses	Dividend income
	¥7	**¥2**	**¥—**

Millions of yen

Note: During the current fiscal year, the cumulative gain (after tax) of 1 million yen was reclassified from other components of equity to retained earnings.

37. Operating Leases

• Leases as lessee

Lease payments under operating lease agreements recognized as expenses in each reporting period are as follows:

	Millions of yen	
	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Minimum lease payments	¥1,720	**¥1,610**
Total lease payments	¥1,720	**¥1,610**

Note: Minimum lease payments are recorded in "Cost of sales," "Selling, general and administrative expenses," and "Research and development expense" in the consolidated statement of profit or loss and other comprehensive income.

Future minimum lease payments for non-cancelable operating leases are as follows:

	Millions of yen	
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Less than 1 year	¥ 727	**¥ 492**
Between 1 and 5 years	685	**640**
Over 5 years	55	**7**
Total	¥1,469	**¥1,140**

Note: Operating lease payments represent rent payments the Anritsu Group is obligated to pay for buildings and structures, tools, furniture and fixtures and machinery, equipment and vehicles. Although some agreements provide rights for renewal, there are no significant provisory clauses such as purchase options, sublease agreements or escalation clauses (provisions that require increases in lease payments).

38. Related Parties

(1) Major Subsidiaries

			Percentage ownership (%)	
Name	Business	Location	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**

(2) Transactions with Related Parties

• Previous fiscal year

There are no significant related party transactions (excluding those eliminated in the consolidated financial statements) to be disclosed.

• Current fiscal year

There are no significant related party transactions (excluding those eliminated in the consolidated financial statements) to be disclosed.

(3) Payments to Key Executives

	Millions of yen	
	FY2015 (From April 1, 2015 to March 31, 2016)	**FY2016 (From April 1, 2016 to March 31, 2017)**
Compensation and bonuses	¥250	**¥211**
Share-based payments	18	**12**
Total	¥268	**¥223**

39. Commitments

There are no significant commitments to be disclosed.

40. Contingencies

• Contingent Liabilities

The Anritsu Group provides guarantees to financial institutions for Group employees' housing loans, operationally contracted performance and as shown below:

		Millions of yen
	End of FY2015 as of March 31, 2016	**End of FY2016 as of March 31, 2017**
Guarantees for employees	¥168	**¥129**
Operationally contracted guarantees	444	**429**
Total	¥613	**¥559**

(Guarantees for Employees)

The longest period of the guarantee is through 2032. If Anritsu Group employees fail to repay their housing loans which are subject to a guarantee, the Anritsu Group is required to cover the debt. These guaranty obligations are secured by each employee's house as collateral.

(Operationally Contracted Guarantees)

The longest period of the guarantee is through 2017. The guarantees cover operationally contracted performance and other obligations of the Company's subsidiaries. If a subsidiary fails to fulfill these obligations, the Company is required to cover the relevant obligations.

• Contingent Assets: None

41. Subsequent Events

None

This Annual Report is prepared for overseas investors as supplementary information of "2017 Anritsu Integrated Reporting" to provide financial highlights of Anritsu. This report excerpts main financial information from the Annual Securities Report ("Yukashoken Hokokusho") filed with the Director of the Kanto Local Finance Bureau via Electronic Disclosure for Investors' NETwork ("EDINET") pursuant to the Financial Instruments and Exchange Act of Japan. For convenience of readers outside Japan, certain information is only included in this report and not included in the original Annual Securities Report. Should there be any inconsistency between the English text of the Annual Report and the official Japanese text of the Annual Securities Report ("Yukashoken Hokokusho"), the latter shall prevail.

Training at Anritsu Japan headquarters with participants from around the world.
