Anritsu marked the 120th anniversary since its founding in 2015, and is already moving forward into a new era. Over the 124 years since the launching of its business, Anritsu’s strengths have made it possible for the Company to make strong contributions to the development of the IT field, including in wired and wireless communications devices and related measuring equipment. “Sincerity, Harmony, and Enthusiasm” and “Original & High Level” are two philosophies that have become part of Anritsu’s DNA over the years, and these two ideas form the source of the Company’s strengths.

This report has been prepared to help our stakeholders better understand these two strands of DNA as well as their role in forming our medium- to long-term growth strategy. In line with this goal, this report presents information on financial factors, including financial performance and corporate strategy, as well as non-financial factors, such as information on environmental and social matters, in an integrated fashion.

We remain committed to managing Anritsu so that our main business activities will continue to contribute to the creation of a safe, secure, and prosperous global society.
