Cautionary Statement

All information contained in this release which pertains to the current plans, estimates, strategies and beliefs of Anritsu Corporation (hereafter "Anritsu") that is not historical fact shall be considered forward-looking statements of future business results or other forward-looking projections pertinent to the business of Anritsu. Implicit in reliance on these and all future projections is the unavoidable risk, caused by the existence of uncertainties about future events, that any and all suggested projections may not, come to pass. Forward-looking statements include but are not limited to those using words such as "believe", "expect", "plans", "strategy", "prospects", "forecast", "estimate", "project", "anticipate", "may" or "might" and words of similar meaning in connection with a discussion of future operations or financial performance.

Actual business results are the outcome of a number of unknown variables and may substantially differ from the figures projected herein.

Factors which may affect the actual business results include but are not limited to the economic situation in the geographic areas in which Anritsu conducts business, including but not limited to, Japan, Americas, Asia, and Europe, changes in actual demand for Anritsu products and services, increases or decreases in the competitive nature of markets in which Anritsu sells products or buys supplies, changing aptitudes at providing services, and exchange rates.

You also should not place reliance on any obligation of Anritsu to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Anritsu disclaims any such obligation.

1-4. Revenue and operating profit plan (2/2)

1-5. GLP2023 : Financial strategy (1/3)

- ◆ Emphasis on growth, profitability and efficiency
- ◆ Strengthen growth investment
- ◆ Enhancement of shareholder returns

KPI to measure Corporate value : $ROE \geq 15\%$

1-6. GLP2023 : Financial strategy (2/3)

◆ Promotion of cash flow management

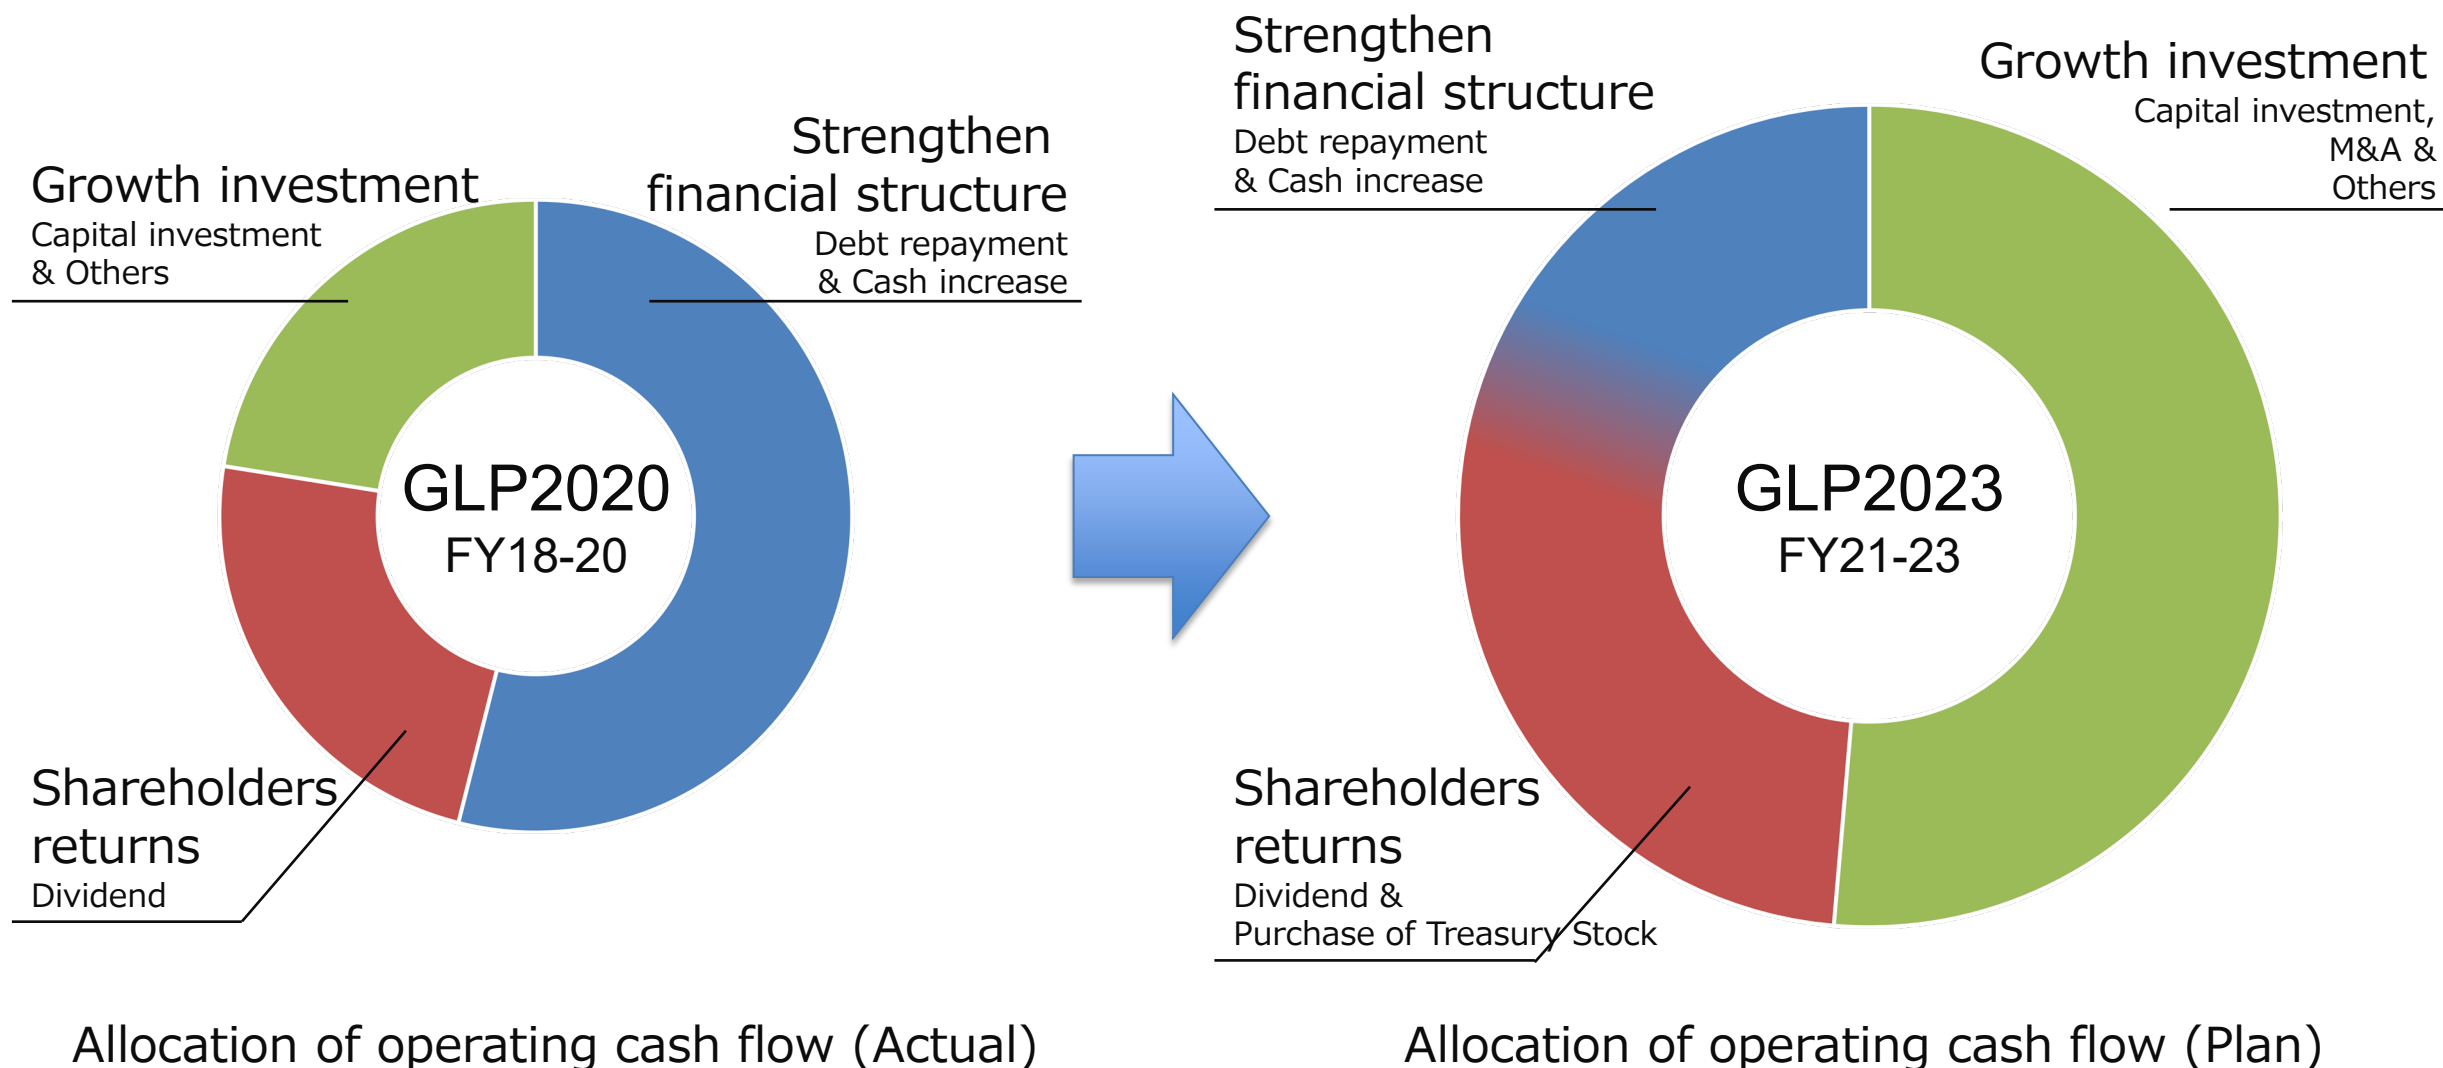

Improve operating CF by strengthening profit structure and promoting efficiency of working capital

Cash flow trends

1-7. GLP2023 : Financial strategy (3/3)

Priority allocation of cash to growth investment

1-8. Shareholder Return Policy

The Company's basic policy for returning profits to its shareholders is to distribute profits in accordance with its consolidated performance and by taking into account the total return ratio.

With regard to dividends, while taking the basic approach of raising dividends on equity (DOE) in accordance with the increase in consolidated profits for the fiscal year, the Company aims at a consolidated dividend payout ratio of 30 percent or more. The Company's basic policy is to make distributions of dividends, twice a year, consisting of a fiscal year-end dividend and an interim dividend by resolution of the General Meeting of Shareholders and by approval of the Board of Directors.

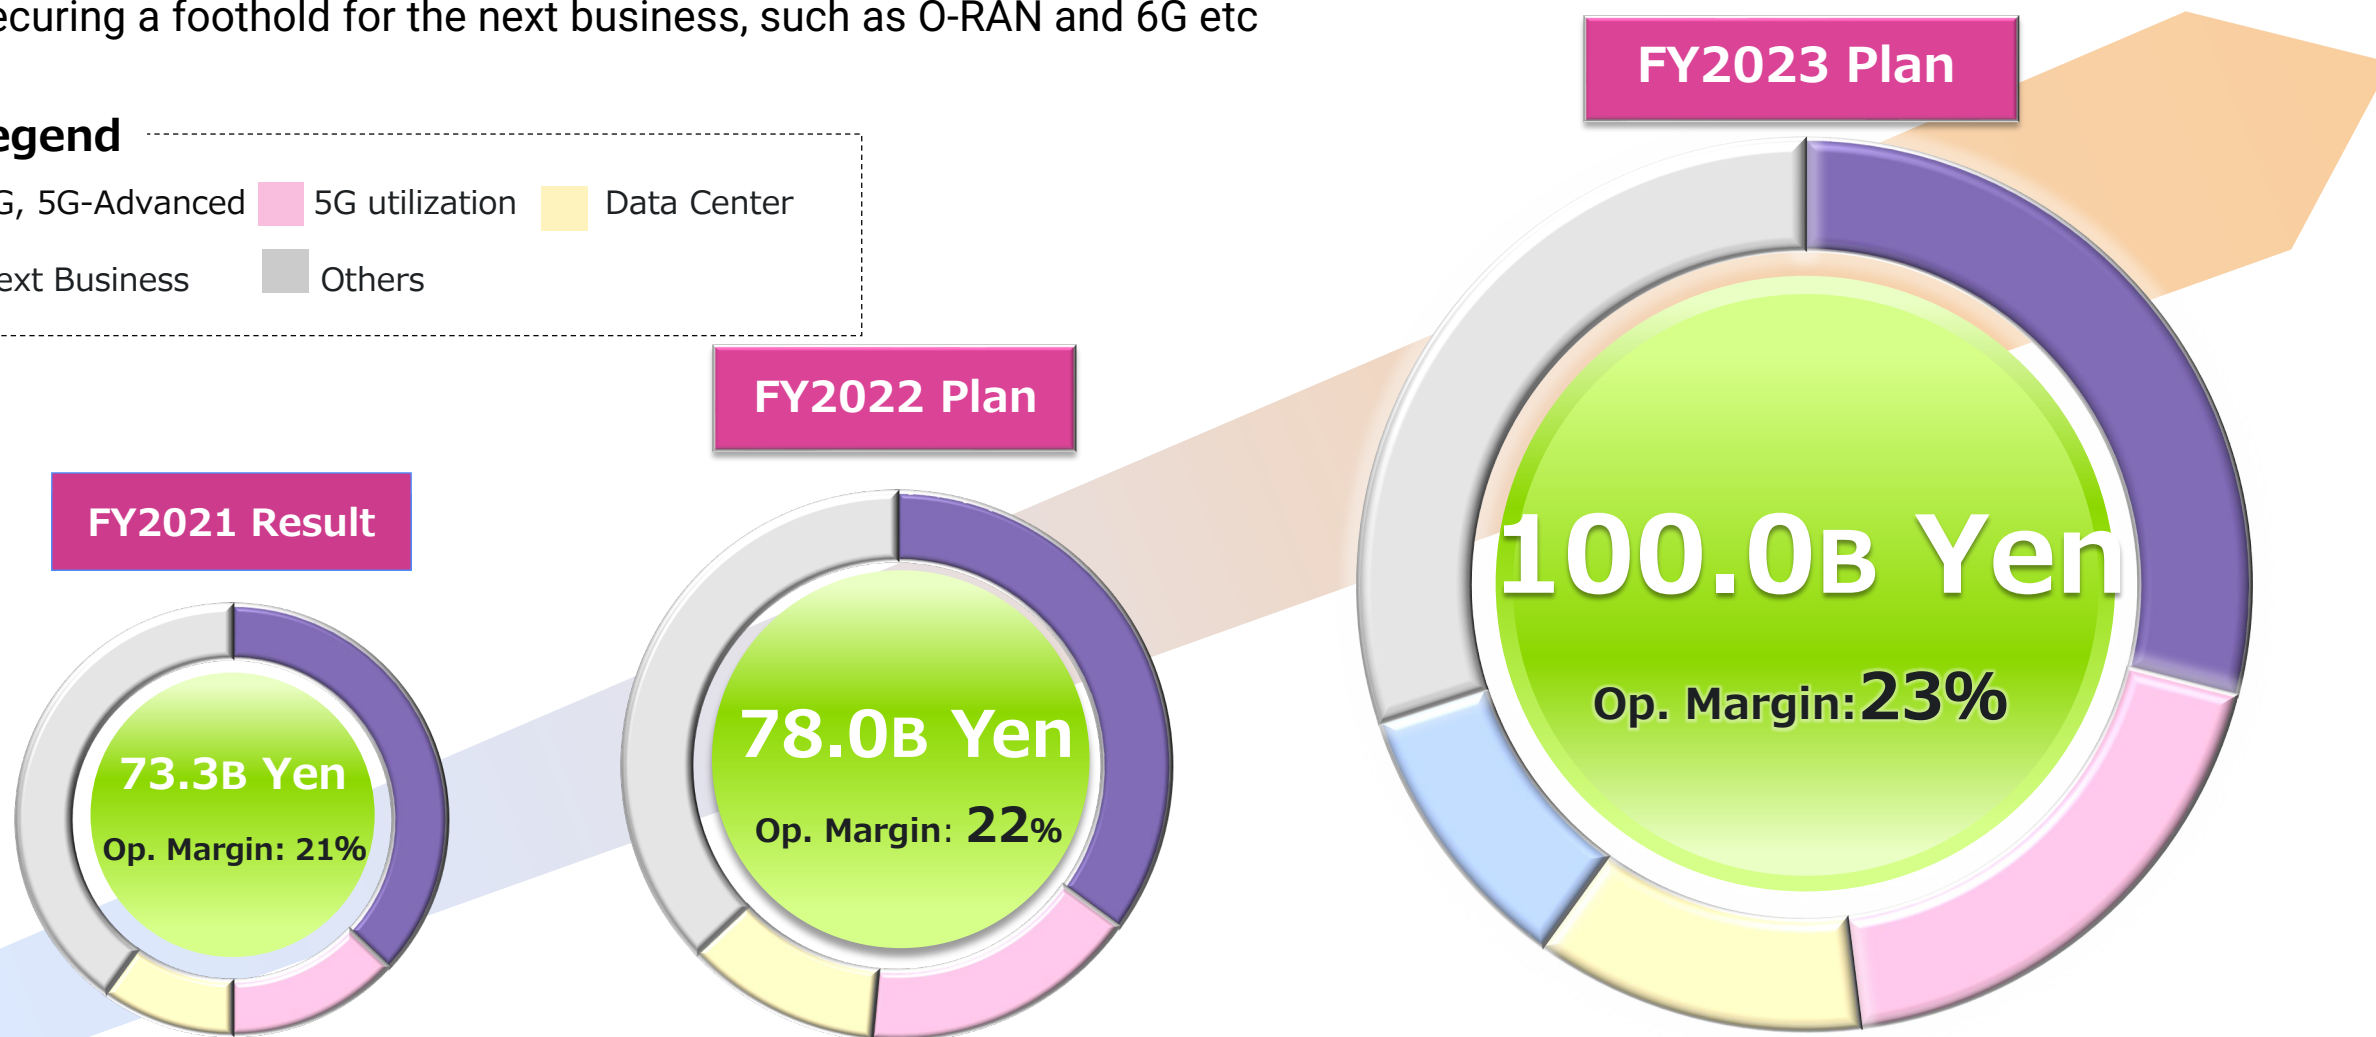

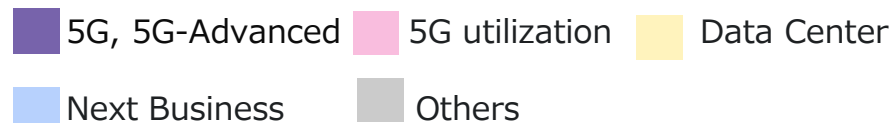

The Company intends to carry out the purchase of treasury stock appropriately as necessary, by taking into account its financial situation, the trends in stock prices and other factors, in an effort to execute capital policies that respond flexibly to changes in the corporate environment.

1-9. T&M : GLP2023 revenue and operating profit plan

Initiatives for FY2022

- Acquiring demand for 5G in EMEA
- Customer development for 5G IoT / automotive market in Asia / North America
- Securing a foothold for the next business, such as O-RAN and 6G etc

Legend

3-4. Current Worldwide 5G Situations

Europe

Sub6: 5G coverage in Europe trending upward. As of March 31, 2021, 5G services were launched in 24 of the 27 EU countries.

Millimeter wave: Frequency auctions have been completed in countries including Italy and Finland.

Korea

20.92 million 5G subscribers (as of December 31, 2021)*

Sub6: 115,000 Base Stations have been installed; more than 90% of population covered

Millimeter wave: Scheduled launch of services in 2020 have been delayed; launch date to be determined

China

760 million 5G subscribers (as of January 31, 2022)*

Sub6: 770,000 Base Stations have been installed as of December 31, 2020. Plans to install 600,000 more during 2021.

Millimeter wave: Checking for trends*

US

72 million 5G subscribers (as of December 31, 2021)*

Sub6: Verizon will launch services using C-band in 1Q 2022. Plans to cover 100 million people by March 2022.

Millimeter wave: Verizon will expand number of sites from 14,000 to 30,000 by the end of 2021.

South East Asia/Oceania

Sub6: 5G services were launched in countries such as Australia, Thailand, and Philippines during 2020

Millimeter wave: Services were launched in Australia in May 2021

Japan

36.42 million 5G subscribers (as of December 31, 2021)*

Sub6: All major cities in all 47 prefectures are covered.

DoCoMo has installed a cumulative total of 20,000 Base Stations as of March 31, 2021 (250,000 LTE Base Stations installed).

Millimeter wave: Four phone carriers have launched services from the latter half of 2020.

Source: Prepared Anritsu based on publicly available information as of July 2021

* some information updated as of May 2022

3-5. C-Band Demand in the United States

1. Base station construction and maintenance demand

5G services have started except for areas around airports after more than one month delay due to resolving radio interference issues within the band and interference with aircraft altimeter signals.

2. Device development demand

Strong demand from smartphone vendors in the US, South Korea and Japan.

3. Carrier acceptance test Demand

Strong demand from mobile operators, test houses and smartphone vendors.

■ Phase 1: 46 PEAs and frequency block A

Frequencies will be freed by the end of 2021

■ Phase 2: Remaining PEAs and frequency blocks B & C

Frequencies will be freed by the end of 2023

5.2 Environmental Initiatives

5.3 Social and Employee Engagement/Well-being Initiatives

5.4 Corporate Governance

5-1-1. Corporate Philosophy and Sustainability Policy

Creating a Sustainable Future Together

In April 2021, Anritsu formulated its new Company Vision and Company Policy toward 2030. Our Sustainability Policy was revised at the same time. We take on the challenges of creating a sustainable society together with our stakeholders through the actions of every employee under the Company philosophy, Company vision, and Company policy.

Sustainability Policy

The Anritsu Group aims to increase our long-term corporate value through contributing to building a sustainable future of the global society with "Sincerity, Harmony, and Enthusiasm."

1. We will contribute to building a safe, secure, and prosperous global society through our business activities, based on our long-term vision.
2. We will take the initiative in solving environmental issues, such as climate change, to contribute to building a people- and planet- friendly future.
3. We will respect the human rights of all people and strive to create a workplace offering healthy lives and decent work for all where diverse individuals can grow together.
4. We will operate as a business with high corporate responsibility, peaceful, just, and ethics while maintaining business transparency to meet our social obligations.
5. We will promote communications with stakeholders to develop strong partnerships and meet the challenges of solving social issues.

The Future Goal of Our Sustainability Management

Company Philosophy

Company Vision

Company Policy

Sustainability Policy

Mid term Business Plan (GLP2023)

Financial target

Sustainability target

Solving Social Issues Through Business

Anritsu Group

Put into place a safe and secure infrastructure which leads to the building of a sustainable society and encourages innovation

Test and Measurement Business

- Put in place a robust network infrastructure

PQA Business

- Reducing food loss
- Ensuring product quality

Environmental Measurement Business

- Put in place a robust network infrastructure
- Preventing and mitigating natural disasters

Sensing & Devices Business

- Put in place a robust network infrastructure
- Ensuring healthy lives

Challenges to Meet the Needs of Society (ESG)

Promoting Global Environmental Protection

Contributing to the creation of a sustainable society with sustainable consumption and corporate production practices

- Increasing the share of private renewable energy generation of total energy consumption
- Reduction in CO₂ emissions volume (energy consumption volume) and water usage volume
- Developing and manufacturing high-quality and environmentally friendly products
- Supply chain management that lowers environmental impact

Maintaining Harmony with the Global Socio-Economy

Together with our diverse human resources, we seek to contribute to the creation of workplaces where each individual can achieve personal growth and experience job satisfaction.

- Respect for human rights and diversity
- Human resources development
- Occupational health and safety
- Supply chain management that gives due regard to human rights

Expanding and Strengthening Governance

Ensuring ethical corporate activities through risk management and transparent, fair, quick, and resolute decision making

- Corporate governance
- Establishing compliance as a part of our mind-set
- Promoting risk management

The Creation of Shared Value through the Promotion of Communication

Contributing to the creation of shared value with collaboration among all stakeholders

- Providing information to and communicating with stakeholders

The Future Goal of Our Sustainability Management

Developing a Safe, Secure, and Prosperous Global Society

Anritsu will contribute along with its customers to the resolution of social issues through its business operations. The Company takes on challenges to meet the needs of society and places great value on communication with stakeholders while working to advance the sustainability of a global society.

Contribution Areas

5-1-3. Sustainable Development Goals (SDGs)

Goals and initiatives

GLP2023:KPI

E

Environment

Long-term plans and initiatives to reduce greenhouse gas emissions

- Greenhouse gases (Scope 1+2): 23% reduction compared to FY2015
 - Greenhouse gases (Scope 3): 13% reduction compared to FY2018
- ...**30% reduction by FY2030**

Increase in the share of in-house renewable power generation (PGRE 30)

- In-house power generation ratio: 13% or more
- ... **To be increased to around 30% by 2030**

S

Social

Promoting diversity management

- Advancement of women: A proportion of women in senior management positions of 15% or more
- Advancement of the elderly: Employment until the age of 70 and the establishment of a new compensation packages
- Promote employment of physically challenged people: Achieve the legally mandated employment rate of 2.3% through job development

Promoting global CSR procurement

- Strengthening of supply chain due diligence: A cumulative total of 10 or more companies, over 3 years
- Developing awareness on CSR procurement to suppliers at least twice per year, and provide training at least once each year

G

Governance

Improving global governance

- Promoting the diversity of the Board of Directors, outside director ratio 50% or more

Promoting the establishment of an internal control system at overseas subsidiaries

- All overseas subsidiaries meet the criteria of Control Self-Assessment (CSA)

5-2-1. Environmental and climate change initiatives

Basic Policy

Recognizing measures for climate change as one of the most critical issues in environmental management, the Anritsu Group focuses on reducing CO₂ emissions throughout its value chain and offering products and solutions that helps mitigating damages associated with natural disasters.

To prevent global warming, we will set scientifically sound targets for reducing greenhouse gas emissions and actively work on initiatives such as reducing energy consumption, increasing the share of private renewable energy generation, collaborating with suppliers and reducing the power consumption of our products.

On June 30, 2021, Anritsu endorsed the TCFD's recommendations.

Formulation of SBT :

In December 2019, the Science Based Targets initiative (SBTi) approved the Anritsu Group's greenhouse gas emissions reduction targets as science-based targets under the 2°C scenario. We plan to change the science-based target (SBT) to either well below 2°C or 1.5°C by fiscal 2023.

In addition, we plan to identify specific measures for the long-term plan to achieve carbon neutrality by 2050 .

CO2 Emissions and Reduction Targets in Scope 1 and Scope 2 (Market-Based)

5-2-2. Anritsu Climate Change Action PGRE 30

PGRE 30: Anritsu Group's energy consumption in fiscal 2018 as a reference, the plan is intended to invest in solar power generation facilities (a renewable energy source) and increase the private renewable energy generation ratio from 0.8% to about 30% by around 2030.

(Anritsu Group's unique initiative)

FY2020: Solar power generation facility was put into operation at the California plant in the U.S. from October

After 2021: Considering expansion of solar power generation facility at the Koriyama plant, Fukushima Prefecture

* The "PGRE" in "PGRE 30," Anritsu's climate change mitigation initiative, stands for "Private Generation of Renewable Energy," and the "30" represents the achievement period of around 2030 and the target ratio of an in-house power generation roughly 30%.

Solar Power Generated and Consumed Privately (MWh)

	FY2016	FY2017	FY2018	FY2019	FY2020
Solar power generated	227	233	241	246	892
Solar power consumed	212	218	225	239	891

PGRE30: Share of Solar Power Generated Privately to Consumed Privately

5-3-1. Promoting Work Style Reform and Diversity

Work Style Reform

Anritsu considers well balanced Life and Work, the adequately positioned Work when we place the Life of individuals first at the center of how they spend a day. In that sense we use the term Life-and-Work-balance rather than commonly used term Work-and-Life-balance. The Anritsu Group focuses on enabling its employees to improve productivity by encouraging them to pursue a fulfilling personal life as well as an equally fulfilling professional life. In fiscal year 2020 Anritsu introduced “The 6th action plan for next generation development support” to promote the understanding of employees towards reduction of total work hours and improvement of work styles. (see the table on the right). In fiscal year 2021, we will continue to improve working conditions as the part of our work style reform.

The 6th action plan for next generation development support
(April 1, 2020 to March 31, 2024)

Objectives	Measures	Actions
Improve working conditions toward workstyle reform	Review and improve the workplace environment so employees have a better life-work balance	From April 2020: considering and designing a flexible system that offers workstyle options (such as telework)
Draw up, consider and implement a plan for revising and reinforcing childcare systems	Cultivate a workplace culture in which employees feel free to take days-off or leave for a better life-work balance	From April 2020: promoting a workplace culture that is more supportive of men taking childcare leave

Promotion of Diversity

Anritsu listed 3 targets in GLP2023 as the part of diversity promotion plans. Especially for promotion of women advancement and improvement of the ratio of female managers, we have been able to make some achievements. The ratio of women participants for leadership training increased to 27% in FY2020 from 12% of 2016 by introducing self-application rather than traditional department application. Other measures, such as the training program aimed at supporting the advancement of women’s careers, also proved to be successful, leading to the appointment of two female managers in fiscal year 2020 and two more in fiscal year 2021 (14% of all newly appointed managers in both years).

Ratio of Female Managers

(number of female managers / number of all managers) (%)

	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020
Japan	1.3	1.3	1.0	1.1	1.8	2.3
Americas	22.7	24.7	23.0	20.2	18.3	17.9
EMEA	17.0	19.7	22.1	23.5	21.6	24.2
Asia and others	18.2	21.7	21.6	24.1	23.4	24.0
On a global consolidated basis	9.6	10.2	9.9	10.5	10.4	10.8

5-3-2. Supply Chain Management

Mid-Term Goals until the End of Fiscal year 2023

- ▶ Conducting a CSR procurement survey with at least ten suppliers in three years and on a more global scale (mainly in Asia)
- ▶ Deepening supplier understanding of Anritsu's CSR procurement initiatives through a three-year program, which provides procurement-related information and other useful knowledges
- ▶ Raising the ratio of Anritsu-certified green suppliers and providing non-green suppliers with environmental education to cultivate an eco-friendly supply chain

In fiscal year 2010, we formulated the Anritsu CSR Procurement Guideline, which complies with the Supply-Chain CSR Deployment Guidebook published by the Japan Electronics and Information Technology Industries Association (JEITA). Before starting business or during policy briefings with suppliers, we ask them to learn about and exercise initiative for our CSR procurement policies and submit a letter of consent. We also conduct surveys with suppliers to confirm their stance on CSR. The survey consists of questions about human rights, labor issues, occupational health and safety, fair trade, ethics, product quality and safety, and information security.

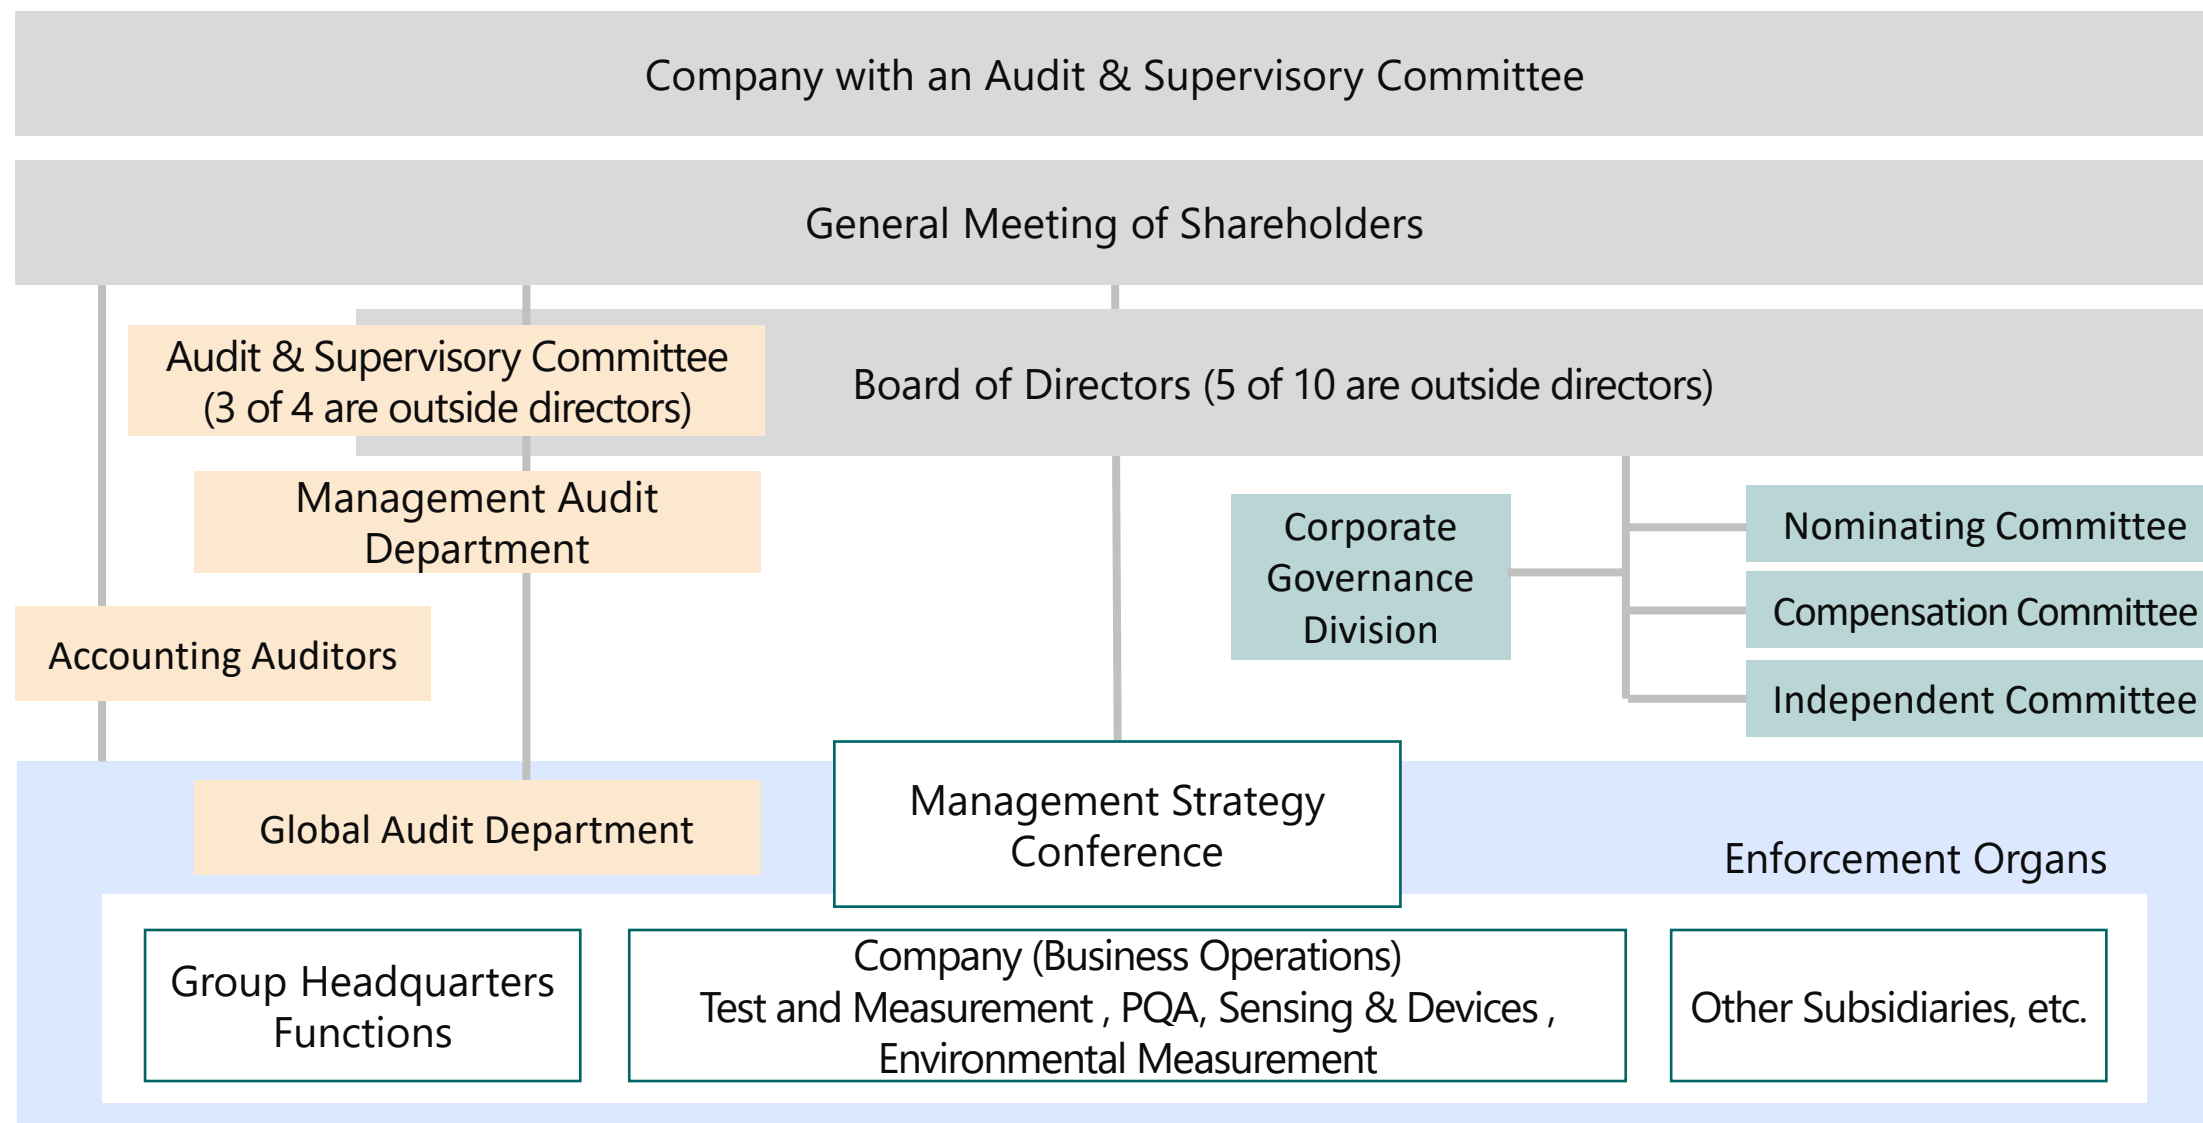

In fiscal year 2019, we visited two secondary suppliers in China and Taiwan for onsite factory audits and confirmed that neither presented serious risks associated with human rights, labor, or safety. None of our suppliers has been found to be in compliance according to our CSR surveys and onsite inspections that have been conducted to date. In fiscal year 2020, when an onsite factory audit could not be conducted due to the influence of COVID-19, we used the time to develop an online auditing method. In fiscal year 2021, we plan to conduct online factory audits at two suppliers in Japan and four in Asia.

5-4-1. Initiatives to strengthen Corporate Governance

Initiatives to Strengthen Corporate Governance

5-4-2. Corporate Governance Structure

5-4-3. Composition of Directors and Committees

-To enhance our competitiveness and continuously improve our corporate value-
Increased the number of outside directors by one from June 2021 so that the ratio of outside directors has been brought to 50%.

Composition of the Advisory Committees (after 24th June 2021)

5-4-4. System of Officer Compensation

The current scheme for officer compensation, etc. sets business performance-linked compensation to the equivalent of 50% of the basic compensation, as a structural feature to motivate officers in sharing a profit orientation with shareholders and in engaging in management from an awareness of performance and stock price from a medium- to long-term perspective. However, it limits directors who do not engage in execution of business (including outside directors) to fixed compensation only.

The performance-linked compensation is composed of monetary compensation (bonus equivalent to 30% of basic compensation) and non-monetary compensation (stock compensation equivalent to 20% of basic compensation) through an incentive plan employing trusts – i.e., it consists of a bonus as short-term performance-linked compensation and stock compensation as medium- to long-term performance-linked compensation.

The Company conducts evaluations in light of factors including the level of distribution of surpluses for the fiscal year under evaluation, degree of achievement of numerical targets involving management metrics, and degree of achievement of management objectives that include non-financial perspectives set in advance.

6. Financial Results for the Fiscal Year ended March 31, 2022

6-1. Consolidated performance - Financial results -

▶ Orders are increased by 3% year on year, revenue and profit declined year-on-year

Unit: Billion Yen

International Financial Reporting Standards (IFRS)	FY2020 (Apr. to Mar.)	FY2021 (Apr. to Mar.)	YoY	YoY (%)
Order Intake	107.6	110.7	3.1	3%
Revenue	105.9	105.4	(0.5)	-1%
Operating profit (loss)	19.7	16.5	(3.2)	-16%
Profit (loss) before tax	19.8	17.2	(2.6)	-14%
Profit (loss)	16.1	12.8	(3.3)	-20%
Comprehensive income	19.9	16.1	(3.8)	-19%

(Note) Numbers for FY2020 and FY2021 are rounded off to the first decimal place in each column.

6-2. Consolidated performance - Results by business segment -

- ▶ T&M : Both revenue and profit declined year-on-year as a result of the semiconductor shortage, but hopes are high for 5G growth in Western markets
- ▶ PQA : Sales recovered, primarily in overseas markets, and revenue increased while profit decreased

Unit: Billion Yen

International Financial Reporting Standards (IFRS)		FY2020 (Apr. to Mar.)	FY2021 (Apr. to Mar.)	YoY	YoY (%)
T&M	Revenue	74.8	73.3	(1.5)	-2%
	Op. profit (loss)	17.7	15.2	(2.5)	-14%
PQA	Revenue	21.4	22.0	0.6	3%
	Op. profit (loss)	1.3	1.2	(0.1)	-12%
Others	Revenue	9.7	10.1	0.4	4%
	Op. profit (loss)	1.8	1.1	(0.7)	-38%
Adjustment	Op. profit (loss)	(1.2)	(1.0)	0.2	-
Total	Revenue	105.9	105.4	(0.5)	-1%
	Op. profit (loss)	19.7	16.5	(3.2)	-16%

(Note1) :Numbers for FY2020 and FY2021 are rounded off to the first decimal place in each column.

(Note2) : Adjustment includes elimination of inter-segment transactions and non distributed company-wide expenses of each business segment.

T&M : Test & Measurement PQA : Products Quality Assurance

6-3. Consolidated performance - Revenue and Op. profit by quarters -

4Q(Jan.-Mar.) Operating margin : Consolidated 19%, T&M 25%, PQA 4%

Note : Numbers are rounded off to the first decimal place in each column.

6-4. Overview of operations by business segment

Segment FY2021 (Apr. to Mar.)	
	 T&M : The stage of 5G services has moved from initial introduction phase to the functional expansion phase. Development of higher-speed data centers is progressing steadily.
	Mobile Market expansion is expected in EMEA and Americas for 5G development demand.
	Network Infrastructure Investment for data centers and others remains steady.
	Asia & Others/ Japan Investment in 5G services is modest but strong.
	Americas Recovery of demand is expected due to the progress of Sub6 GHz (C-band) base station installation.
	 PQA : Demand recovered in overseas markets such as Asia and the Americas.

T&M : Test & Measurement PQA : Products Quality Assurance

6-5. Transition of Order Intake

▶ T&M : FY2021 Order intake 77.1 Billion yen, 1% increase year on year

▶ PQA : FY2021 Order intake 23.1 Billion yen, 7% increase year on year

Note : Numbers are rounded off to the first decimal place in each column.

6-6. Transition of Revenue by Region

Note : Numbers are rounded off to the first decimal place in each column.

6-7. Cash Flow

▶ Operating cash flow margin ratio was 15.2%

FY2021 (Apr. to Mar.)

Operating CF : 16.0 Bn. Yen

Investing CF : (8.7) Bn. Yen

Financing CF : (13.4) Bn. Yen

Free Cash Flow

Op.CF + Inv. CF : 7.3 Bn. Yen

Cash at the end of period

45.7 Bn. Yen

Interest-bearing debt

6.5 Bn. Yen

Appendix2

A2-1. Status of inclusion in ESG indices (1/2)

- Anritsu has been included in the “FTSE Blossom Japan Index”, the “MSCI Japan ESG Select Leaders Index”, the “MSCI Japan Empowering Women Index” and the “S&P/JPX Carbon Efficient Index” of GPIF (Japan Government Pension Investment Fund).

FTSE Blossom Japan Index

The ESG index is designed by FTSE Russell, a group company of London Stock Exchange. The FTSE Blossom Japan Index is designed to measure the performance of Japanese companies that demonstrate strong environmental, social and governance (ESG) practices.

S&P/JPX Carbon Efficient Index

Based on carbon data provided by Trucost, one of the pioneers of environmental research companies, S&P Dow Jones Indices (U.S.A), a leading independent provider, has been developed the index methodologies. The indices are designed to increase index weights of the companies which have low Carbon to Revenue Footprints (annual greenhouse gas (GHG) emissions divided by annual revenue) and actively disclosure carbon emission information.

MSCI Japan ESG Select Leaders Index

This index of ESG overall type has been developed by MSCI Inc. (U.S.A). Companies which have high ESG rate in the top 700 market capitalization are selected.

2021 CONSTITUENT MSCI JAPAN ESG SELECT LEADERS INDEX

THE INCLUSION OF ANRITSU CORPORATION IN ANY MSCI INDEX, AND THE USE OF MSCI LOGOS, TRADEMARKS, SERVICE MARKS OR INDEX NAMES HEREIN, DO NOT CONSTITUTE A SPONSORSHIP, ENDORSEMENT OR PROMOTION OF ANRITSU CORPORATION BY MSCI OR ANY OF ITS AFFILIATES. THE MSCI INDEXES ARE THE EXCLUSIVE PROPERTY OF MSCI. MSCI AND THE MSCI INDEX NAMES AND LOGOS ARE TRADEMARKS OR SERVICE MARKS OF MSCI OR ITS AFFILIATES.

MSCI Japan Empowering Women Index (WIN)

This index has been developed by MSCI Inc. (U.S.A). Companies which have excellent gender diversity at their industry in the top 500 market capitalization are selected.

2021 CONSTITUENT MSCI JAPAN EMPOWERING WOMEN INDEX (WIN)

THE INCLUSION OF ANRITSU CORPORATION IN ANY MSCI INDEX, AND THE USE OF MSCI LOGOS, TRADEMARKS, SERVICE MARKS OR INDEX NAMES HEREIN, DO NOT CONSTITUTE A SPONSORSHIP, ENDORSEMENT OR PROMOTION OF ANRITSU CORPORATION BY MSCI OR ANY OF ITS AFFILIATES. THE MSCI INDEXES ARE THE EXCLUSIVE PROPERTY OF MSCI. MSCI AND THE MSCI INDEX NAMES AND LOGOS ARE TRADEMARKS OR SERVICE MARKS OF MSCI OR ITS AFFILIATES.

A2-2. Status of inclusion in ESG indices (2/2)

- In addition, the company has been included in the following ESG indices.

FTSE4Good Index Series

The World ESG index is designed by FTSE Russell, a group company of London Stock Exchange. The FTSE4Good Index Series offers a representation of the leading global companies in terms of environmental, social and governance criteria.

SNAM Sustainability Index

Sompo Japan Nipponkoa Asset Management Co.,Ltd. (Japan) has used this ESG index. "Buna-No-Mori environment investigation" conducted by SOMPO RISK MANAGEMENT and the "Integrex investigation" conducted by Integrex Inc. put into effect, and those two investigations selected the brand.

STOXX Global ESG Leaders Index

The ESG index is developed by STOXX Ltd., a group company of Deutsche Börse Group. The STOXX Global ESG Leaders Index offers a representation of the leading global companies in terms of environmental, social and governance criteria, based on ESG scores provided by Sustainalytics.

A2-3. external evaluation

- Our external assessment of ESG (Environmental, Social and Governance) is as follows.

CDP

International non-profitable organization CDP asks the main enterprise of the world to disclose the environmental information and sends a letter of inquiry of environmental research. The answer is analyzed and estimated and elucidates for the investors. Anritsu has got the "B" which means the risk and influence of the climate change was being managed.

The Excellent Award of Climate Change Report as part of the 24th Environmental Communication Awards

The Ministry of the Environment of Japan and Global Environmental Forum are sponsors and commends the enterprise doing excellent communication activity about the environment. "Anritsu Sustainability Report 2020" received the Excellent Award of Climate Change Report as part of the 24th Environmental Communication Awards in the environmental report section.

An Excellent Enterprise of 2021 Health and Productivity Management Award

Anritsu Corporation was certified as an Excellent Enterprise of 2021 Health and Productivity Management, the award co-hosted by Ministry of Economy, Trade and Industry of Japan and Nippon Kenko Kaigi, in the large enterprise category for 5 consecutive years.

Kurumin Mark Certification

Kurumin certification is a system in which the Ministry of Health, Labor and Welfare of Japan certifies companies that are working to support a balance between work and child-rearing. Anritsu is continuously working to improve the environment to support work-life balance, and after 2015 and 2018, it obtained the third certification in 2020 and was given the Kurumin mark with 3 stars.

Kanagawa Support Care Company Certification

This is the certification of companies that have a base in Kanagawa Prefecture that actively supports both work and care for employees.
