What benefits does nature provide that support our business operations?

Disaster Risk Reduction

Climate

Water

Mineral Resources

Food

Anritsu

Business operations depend on
a wide range of benefits from nature,
including water, mineral resources,
and a stable climate.

Biogas Power Generation

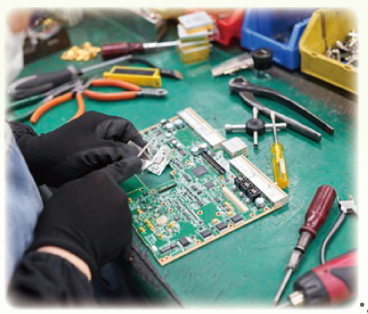

Tree Planting in Tanzawa

TANZAWA

Product Recycling

We recycle end-of-life products.

Through dismantling and material separation, we contribute to a circular economy.

Landscaping with Native Species

We plant native species.

The area showcases seasonal changes and provides habitat for a variety of birds, whose songs can be heard in the morning.

Composting Tree Branches and Leaves

Proper Wastewater Treatment

Solar Panels

Food Waste Resource Recovery

Solar Carport

Rainwater Infiltration Facilities

We strive to minimize the environmental impacts of our operations
and support biodiversity conservation and ecosystem restoration.
