

Software License Install Simple Operation Guide

Vector Signal Generator MG3710A/MG3710E
Analog Signal Generator MG3740A

This guide explains the simple procedure for installing the waveform patterns and IQproducer license in the Vector Signal Analyzer MG3710A/MG3710E or Analog Signal Generator MG3740A (with Digital Modulation option).

- Copy the license files (a below) to the root of a USB memory stick.

a)  Convert_IQproducer.key

Note: Differs according to whether waveform patterns or IQproducer

- Insert the above-described USB memory stick into the Vector Signal Generator MG3710A/MG3710E or the Analog Signal Generator MG3740A and install using the procedure described on the following page.
