PIM Master™ Hard Case Accessory Kit

Introduction

The 2000-1746-R accessory kit includes the RF components, tools, and cleaning supplies needed to support Passive Intermodulation (PIM) testing at a typical cellular installation. The low PIM termination and RF adapters included in this kit support PIM testing of one- or two-port devices with any combination of Type N(m), Type N(f), 7/16 DIN(m), or 7/16 DIN(f) RF connectors. The contents are packaged in a padded transit case for maximum protection while transporting to and from the test location.
