Notes On Export Management

This product and its manuals may require an Export License or approval by the government of the product country of origin for re-export from your country.

Before you export this product or any of its manuals, please contact Anritsu Company to confirm whether or not these items are export-controlled.

When disposing of export-controlled items, the products and manuals need to be broken or shredded to such a degree that they cannot be unlawfully used for military purposes.

Chapter 1 — Quick Start Overview

1-1 Introduction

The Anritsu Tool Box™ provides a suite of software tools that maximize the Anritsu RF Handheld Instruments applications. This document provides an overview of the Anritsu Tool Box contents and Installation Instructions.

1-2 Anritsu Tool Box

The Anritsu Tool Box is a central location to open an Anritsu measurement file, visit the Anritsu web site, or launch an Anritsu software tool application. The Anritsu Tool Box utility screen is shown in Figure 1-1.

Figure 1-1. Anritsu Tool Box
1-3    The Anritsu Tool Box Tools

Anritsu Tool Box suite provides the following software tools:

**Line Sweep Tools**
- Analyze Cable, Antenna, and PIM traces, as well as generate reports. This works with DAT, VNA, and PIM files.

**Master Software Tools**
- Work with spectrum analyzer, interference analyzer, and transmitter test measurements as well as generate reports.

**Wireless Remote Tools**
- Remotely monitor and control many Anritsu handheld RF instruments over Wi-Fi or Ethernet cables.

**easyTest Tools**
- Create work instructions that can be ran on Anritsu handheld RF instruments.

**easyMap Tools**
- Create maps for Anritsu handheld spectrum analyzers to simplify coverage measurements and interference hunting.

For detailed information about a software tool application, refer to the Anritsu Website: https://www.anritsu.com/en-US/test-measurement.
Chapter 2 — Installing Anritsu Tool Box

2-1 System Requirements

- Microsoft® Windows® with (32 or 64 Bit), or (32 or 64 Bit) Operating System
- 1.0 GB of RAM
- 100 MB of available hard disk space
- Microsoft .NET Framework 3.5 SP1

2-2 Installation

To install the latest Anritsu Tool Box software, go to the Anritsu website at: https://www.anritsu.com/en-US/test-measurement

- If you select the Full Installer, internet access is not required while running.
- If you select the Web Installer, internet access is required while running.

Select the installation tab. Follow the on-screen instructions. The installation process will include several installation screens as shown in Figure 2-1.
